BUILDING UP DATABASE OF KERALITE-ACADEMIC  
DIASPORA AROUND THE GLOBE

Short Term Project 130/2021/EVN/SPB

Submitted by  
The Kerala State Higher Education Council

The project *Building Up Database of Academic-Keralite Diaspora around the Globe* was supported by the financial assistance vide Short-Term Project No. 130/2021/EVN/SPB of the State Planning Board of Kerala, Thiruvananthapuram **November, 2021**

## Project Details

Project Title	Building Up Database of the Keralite-Academic Diaspora around the Globe
Project Sanction Order	Proc. Order No. 130/2021/EVN/SPB dated 22-2-2021 of the Member Secretary, State Planning Board
Duration	Six Months
Project Fund (Amount)	Rs. 3,00,000/- (Rupees Three Lakhs only)
Agreement signed on	14-3-2021
Commencement	April, 2021
Name and Address of Principal Investigator	Dr. Manulal P. Ram, Research Officer, (Deputation), Kerala State Higher Education Council Thiruvananthapuram <a href="mailto:manulal.kshec@gmail.com">manulal.kshec@gmail.com</a> 7561018708 Assistant Professor, Department of Geology, Government College, Kottayam
Project Assistant	Arun S.S., Arun Bhavan, Thoppumukku, Vattiyoorkavu, Trivandrum <a href="mailto:ssarun406@gmail.com">ssarun406@gmail.com</a> 9446787902
Completed	November, 2021
Project Proposed by	Prof. Rajan Gurukkal, Vice Chairman, KSHEC
Appendix Tables	1-7
Total Pages	274
Total Tables & Figures	15
Total Annexures	6

## **Foreword**

We had undertaken this short-term assignment from SPB for the generation of profile data regarding the Keralite-Academic Diaspora of Scientists, Social Scientists and Humanities Experts in Universities and research Institutions abroad working in the famous Universities and Research Institutions the world over and specialising in emerging areas of knowledge. As you know the purpose was to invite Keralite experts in advanced fields of science, technology, and social sciences during their sabbatical leave or domestic visits for engaging with Courses and involving in researches for the benefits of students and teachers of universities in the State. Now scholars including Keralites, whom the country is deprived of due to Brain Drain are invited under the Erudite-Scholar in Residence Scheme for a couple of weeks. We thought of a corollary scheme under the name Brain Gain by identifying a larger group of experts ready to make themselves available for a relatively long duration but at a smaller cost for teaching and research. The data search project of Keralite Academic Diaspora is a preparatory of the Brain Gain Scheme hoping to facilitate brain circulation by bringing the experts as short-term teachers, part-time collaborators in projects and co-supervisors in researches. It may help us mobilise expertise from the Keralite academic diaspora data for the benefit of the Government too. We are immensely grateful to the SPB, especially Dr. V.K. Ramachandran, the Vice Chairman for providing the financial support for the project.

**Prof. Rajan Gurukkal**

Vice Chairman

Kerala State Higher Education Council

## **Preface**

In the wake of globalization brain drain has become so entrenched and widely accepted phenomenon. The best brains coming out of our premier public funded institutions in the country are products for export to developed countries. It is in this context Brain Gain scheme was envisaged in the 13th FYP of KSHEC to attract non-resident Indian academicians to higher education institutions in the state for short term teaching and research during their sabbatical leave and holidays. We have to integrate this with the ongoing Erudite scheme (Scholar-in-residence programme). The present project sponsored by the Kerala State Planning Board give a further fillip to the scheme. Dr. Manulal P. Ram (Research Officer, KSHEC) who headed the project has done a commendable job in mobilising data related to our Diaspora. He gathered the data related to leading academicians of Kerala origin working in Universities and other research institutions all over the world. This data base of the Diaspora will definitely strengthen the academic and research level linkage of our academics and HEIs. The KSHEC acknowledges the support of the Kerala State Planning Board in this endeavour and congratulate Dr. Manulal P. Ram and Mr. Arun (Project Assistant) for the successful completion of the project in time.

Dr. Rajan Varughese

Member Secretary

## **Acknowledgements**

The project entitled "Building Up Database of the Keralite-Academic Diaspora around the Globe" has been evolved as an offshoot development of the initiative named *Academic Volunteer Bank* of the Kerala State Higher Education Council. The Vice Chairman of the Council Prof. Rajan Gurukkal has been instrumental for this novel concept of BRAIN GAIN which envisages of bringing back the intellectual insights and resources of Keralites lives elsewhere in the world for the enhancement of academic & research output of state higher education institutions. A greater part of this work is immensely owed to Prof. Gurukkal for the persistent support and innovative ideas throughout the production of this work. The successful completion of this project would not have taken place without the administrative & conceptual support of the Member Secretary Dr. Rajan Varughese. My colleagues in the council Dr. Shefeeque V., Dr. Priya K. Nair, Smt. Deepika Lakshman are deeply indebted for their valuable support. Administrative support by the officials of KSHEC is thankfully noted.

The Principal Investigator place on records his sincere thanks to the State Planning Board Kerala for the financial support.

Manulal P. Ram  
Principal Investigator

## **Abstract**

The proposal of this study submitted by Prof. Rajan Gurukkal, the Vice Chairman of the Kerala State Higher Education Council before the State Planning Board seeking financial support to carry out a study to develop an academic diaspora of Keralite Scientists, Social Scientists and Humanities Experts in Universities and research institutions abroad, Medical Professionals Technocrats/CEOs of Multinational Establishments, Economists, Environment/Biochemistry/ Sustainability/ Resilience/Disaster Management Experts working in the famous Universities and Research Institutions the world over and specializing in emerging areas of knowledge. The project entitled "Building Up Database of the Keralite-Academic Diaspora around the Globe" was approved as a short-term project. Three types of databases have been subsequently developed as part of this study. (1) Scholars from different but specialized areas who have registered in the portal, which is developed and maintained by the council for this purpose, (2) List of scholars with their institution & subject details has been developed through web combing & other search methods, and (3) List of diaspora organisations functioning in various countries. As part of the study, a robust system has been evolved for so that building up of more details and expanding such database on *any-time* time basis. This will ultimately enable to frame a mechanism which can systematically utilize this resource for constructive engagement of international community of Keralite origin for the enhancement of higher education in the state. The results of the work also point out future scope of framing a road map to accomplish the various goals set by the Brain Gain project particularly the linking up with Erudite-Scheme. Only with such concrete & schematic plan can result to the vibrant and consistent use of this database for meeting the quality enhancement in HE sector of the state.

# Chapter 1

## Keralite-Academic Diaspora

### 1. Introduction

Brain regain/circulation/skill transfer has emerged as one of the most important areas of Diaspora contribution to the homeland (Pande, 2014). The predecessor term to it, popularly termed as “brain drain,” policymakers, particularly those in the United States, have been targeted for importing brain gain from source countries and accumulating human capital. But as an expression of British origin, it is commonly used to describe one of the most sensitive areas in the transfer of technology. It refers to skilled professional who leave their native lands in order to seek more promising opportunities elsewhere (Kwok & Leland., 1982).

As per the records of the Ministry of External Affairs, the overseas Indian population is 12,84,55,026 as on January 2015. Coming down to the state of Kerala, the latest statistics provided by NORKA-ROOTS, the organization intended to provide time bound financial support to the Pravasi who has returned back to his homeland, the Keralite population abroad is now crossing 4 million<sup>2</sup>.

Centre for Development Studies (CDS), an institute gained considerable reputation in conducting research studies on international migration, has made significant findings particularly with its research programme Kerala Migration Survey (KMS)<sup>3</sup> about the overseas migration from this geographically small state. In its latest report 2018 held in association with NORKA, points out that the countries in West Asia account for 89.2% of Kerala’s emigrant population and as many as 39.1% of emigrants are in the United Arab Emirates. The “returned emigrants” (REM), according to the survey, was 12.94 lakh in 2018, up from 11.5 lakh in 2008. Compared to the trend in the 1970s and during the exodus from the State to the Gulf, a large

---

<sup>1</sup> (<https://www.mea.gov.in/images/pdf/3-population-overseas-indian.pdf>).

<sup>2</sup> <https://norkaroots.org/>

<sup>3</sup> <https://cds.edu/endowments/international-migration-from-kerala/>

number of the skilled workforce of doctors, nurses, engineers, IT professionals and teachers are now seeking employment outside the country. Of those employed abroad from the State, 67.78% are professionals such as businessmen, teachers, bankers; 3.78% are engineers, doctors (0.53%), nurses (6.37%), IT professionals (2.23%), drivers (11.85%), and 10.99% are salesmen.

In addition to the economic benefits of brain drain to the home country of the immigrant, the brain drain may in effect be a blessing in disguise. Which argues that, faced with an opportunity to migrate and receive higher expected returns to investment in human capital, brain gain may arise from new skills that are acquired abroad and are brought home upon their return favorably alters the incentives of a poor country's workforce to invest in human capital formation (Stark et al., 1997).

There is also potential for knowledge exchanges through the diaspora as a practical and flexible method for restoring the knowledge and skills that are temporarily 'lost' when highly skilled people leave their home countries, and argues that high-skilled migration may not necessarily lead to loss of skills and knowledge for sending countries (Siar, 2013).

Keralite Diaspora around the globe has been a large sector of social science research for long period of time. Many scholars and institutions have contributed valuable academic resource on this aspect and its changing trends particularly in immigrants to gulf countries to western world as well as the pattern of remittance to this state ((Sasikumar, 2016)(Walton-Roberts, 2014), (Karinkurayil, 2021). From a policy perspective, diaspora communities have been largely recognized as powerful actors whose activities affect the economic, political and social dynamics of their home countries, consequently gained greater momentum in the political and academic arena in the recent past (Palackal, 2013).

In such context of bringing this Keralite diaspora particularly the academia as a powerful actor in education & research arena of the state, the present work on building up database forms a working platform in future discourse in to this direction.

## **2. Purpose of work**

The Kerala State Higher Education Council is having the general responsibilities and functions including rendering of advice to the Government, Universities and other institutions of higher education in the state of Kerala. This include various matters of academic input for the formulation and implementation of the policies on higher education and evolve a perspective

plan for the development of higher education, suo moto or on the suggestion from Government or requests from Universities or other institutions. The council undertakes independent research for the generation of new ideas for the promotion of social justice and academic excellence in higher education, hold awareness programmes for the academia and initiate or propose or pilot projects on an experimental basis in selected higher education institutions for implementation of the new ideas (<sup>4</sup>Kerala State Higher Education Council Act, 2007)

A large number of literature available on the topic of diaspora studies across the world and the concept of utilizing the diaspora of any country for the benefit of home country is an established method in developing world. In the context of the state of Kerala, there is no valid database or any account of number of scholars or professionals working abroad on various specialized or emerging field of knowledge, has been made available. If such information can be built, that will lead to a major leap towards the knowledge capital of the state. While still coping with brain drain, sending countries now increasingly recognize diaspora as a channel for technology transfer. With a strong attachment to their homelands, the diaspora can create networks to connect professionals and scientists around the world to help promote scientific and economic development in their home countries (Andrés, 2002).

It is understood that there are certain discipline-wise initiatives like *IndiaBioscience's* which revolves around Engaging Communities and Enabling Change that works to establish and grow a well-knit mutually supportive life science community in India. The "Interactive Database of Life Science Researchers" is a compilation of the best of India's life scientists together (<https://indiabioscience.org/>) and similarly, the information system and database on Science and Technology (S&T) Statistics, popularly known as Science Statistics has also collect database of Indian Origin Academicians. But these resources do not provide any valuable information of scholar details of Keralite origin. There are important academic resources about migrations within India and to gulf countries by Keralites which cover a larger aspects relating to the impact of Diaspora in the Kerala's development (Zacharia and Irudaya Rajan, 2013). But there is significant improvement in developing a network of Keralite diaspora organisations across the world over the recent period. <sup>5</sup>Loka Kerala Sabha (LKS) is such a platform brought out by

---

<sup>4</sup> <http://www.kshec.kerala.gov.in/index.php/act-and-rules/higher-education-act>

<sup>5</sup> <https://www.lokakeralasabha.com/>

Government of Kerala for Keralites living across the globe, which envisages the cultural, socio-political and economic integration of Keralites abroad.

### **3. Project Proposal**

Keeping in view of the above aspects, the council has evolved a strategy for involving scholars from different sector of academic, research, industry and other walks of life by formulating a concept called “Academic Volunteer Bank (AVB)” which can attract experts from different field to join with KSHC for offering their knowledge, service for the well-being of the higher education in the state of Kerala.

In a similar context of objective, the Vice Chairman of the Kerala State Higher Education Council has made a proposal to the State Planning Board seeking financial support to carry out a study to develop an academic diaspora of Keralite Scientists, Social Scientists and Humanities Experts in Universities and research institutions abroad, Medical Professionals Technocrats/CEOs of Multinational Establishments, Economists, Environment/Biochemistry/ Sustainability/ Resilience/Disaster Management Experts working in the famous Universities and Research Institutions the world over and specializing in emerging areas of knowledge.

Such a database will act as a support system in enhancing quality of higher education in the state, primarily to

- attract, share, involve, integrate and incorporate Keralite-Academics in advanced fields of science, technology, and social sciences for the quality enhancement in higher education institutions in Kerala
- effectively implement the Erudite-Scholar in Residence cum Brain Gain programme
- launch the programme of brain circulation by bringing the experts as short-term teachers, part-time collaborators, and co-supervisors in researches in the universities
- locate experts in science-tech hybrid fields relevant to the transformation of higher education to knowledge economy and enhancement of the states’ intellectual property contributions
- establish communication directly with the experts who possess the expertise
- identify experts in high-tech industries and invite them for generating ideas for the reconstitution of the curricula of the higher education institutions

- provide advisory support to the government by using the above database in relevant matters of expertise

The proposal submitted by the Vice Chairman of the council was subsequently approved by the State Planning Board vide Proc. Order No. 130/2021/EVN/SPB dated 22-2-2021 of the Member Secretary, State Planning Board (*Annexure 1*). The council has made a comprehensive plan to collect the details of such scholars/scientists etc. from various organisations, institutions through primary and secondary data collection from different sources. Terms and Conditions as an agreement has been signed between the Member Secretary, KSHEC with the Member Secretary State Planning Board with regard to the conduct of the study under this project.

## **6. Project Expenditure**

The expenditure part of the project is proposed as (1) employment of sufficient support team including one researcher and a data entry assistant (2) Travel and contingency with respect to gathering and processing of data (3) other final drafting and report making.

Table 1  
. Project Expenditure

<b>Personnel</b>	<b>Responsibility</b>	<b>Duration</b>	<b>Salary per Month</b>
1 Researcher	Correspondence and PR jobs	6 months	Rs. 20,000 x 6
1 Data Entry Assist	Data entry and computer jobs	6 months	Rs. 20,000 x 6
Travel & Contingency			Rs. 40000
Overhead			Rs. 20,000
<b>Total</b>			<b>Rs. 3,00,000</b>

## **Chapter 2**

### **Methodology**

#### **1. Working Plan**

The present study has employed various methods for data capture through available resources and through new mechanism. Although a number of studies have taken place with respect to the diaspora around the globe as well as of Keralite origin, there is no comprehensive report mentions about the academic population of Keralite origin working in universities, research institutions, industry, medical fields etc. abroad. It is undisputable fact that such a population of Keralite origin is significant in number.

The following aspects are also covered in connection with the building up of such data base during the course of time.

- *Collection of literature and reviews that helps information capture and analysis has been attempted and have noticed that such records are available.*
- *Exploring the available resources (Direct Search) like INFLIBNET, IRIM, Vidwan etc. along with any public platforms which the state or central governments have established an interface of academic/industrialists/ technocrats etc. over the years*
  - *Data collected from such sources.*
- *Obtain available resources (Web-based institutional Combing) of the alumni of the state universities and other institutions by correspondence and access to their database*
  - *Universities in the state has been informed about this project and has been asked to circulate among the departments and other affiliated institutions for adequate coverage and reach to potential areas.*
- *Exploring the social communication networks and social media platforms (Indirect Search) through individual and institutional contacts*
  - *Details of this project have been posted on various social media groups and platforms*
- *Steps have been taken to provide adequate coverage about the proposed data collection through advertisements in media/journals/newsletters of academic institutions across the globe)*

- *Advertisement through press release and news coverage on national and local dailies and its online editions. A brief advertisement has been made to be provided in the most popular Indian journals like CPW and Current Science online edition.*
  - *The academic collaboration with other research organizations has also been sought for enriching the database.*
    - *Universities have been asked to communicate the same to obtain details of the collaborative programmes and engagements with the interested organisations in the state.*
- i) Direct Search:** The most effective way to collect data on diasporas is to combine domestic and external resources, as well as data from the sending and the receiving country. The domestic resources are consulates, ministries of foreign affairs, education and justice, the national & state offices etc. can also provide data (Dina Ionescu, 2006). In the present study, database available from central and state governments contain the list of diaspora organisations function in various countries. Educational institutions in the state, particularly the universities can provide such list of scholars working abroad through their departments.

**International:** Large number of registered organisations of Malayalee community/Keralite origin are functioning in different countries. <sup>6</sup>Organisation like World Malayalee Council works towards an international brotherhood of Malayalee / people of Kerala origin to bolster their cultural, artistic and social uniqueness working with the Malayalee diaspora across the Globe. Details obtained from the foreign institutions and other establishments are solely based on the web-combing method by visiting the prominent web-sites of those institutions. This is a herculean task, and has been done through consistent effort. Web-based Institutional Combing is combing of the faculty of the Universities and Research Institutions can help generate details of the Keralite diaspora academics.

---

<sup>6</sup><https://www.mea.gov.in/images/pdf/list-of-overseas-indian.pdf>  
<https://norkaroots.org/>  
<https://www.worldmalayaleecouncil.net/>

**National:** Indian Research Information Management (IRIM) service developed by the Information and Library Network (INFLIBNET) Centre, a web-based source and free software service to the academic and R&D organisations in India that have been searched for data. Its portal facilitates the academic, R&D organisations and faculty members, scientists to collect, curate and showcase the scholarly communication activities and provide an opportunity to create the scholarly network. IRIN has some limited information that could help to integrate the existing institutional repository of scholars. Out of this data pool also, the Keralite diaspora data has been sorted out. IRIM also has a national data pool called VIDWAN, the premier database of profiles of scientists/researchers and other faculty members working at leading academic institutions and other R & D Organisation involved in teaching and research in India. It provides important information about expert's background, contact address, experience, scholarly publications, skills and accomplishments, researcher identity, etc. From the vast source of data on VIDWAN which contains scholars/scientists from all parts of the country, the scholars of Keralite origin has been roughly picked out and send communication for registering with the brain gain portal of KSHEC.

## **ii) Indirect Search**

- Data generation of academics through correspondence with the persons and Institutions abroad by using contacts notified in the Internet
- Data mobilization based on the personal contacts of academics, scientists, social scientists and technologists in the universities of the state
- Correspondence with Regional Malayali Academics Organisations
- Correspondence with Malayali Professional Organisations abroad can share preliminary data about Medical Professionals, Technocrats/CEOs of Multinational Establishments
- Correspondence with Malayali Students Organisations abroad can share preliminary data about Medical Professionals, Technocrats/CEOs of Multinational Establishments
- Correspondence with the Parents of the Students/Researchers/Academic working in universities and research establishments abroad
- Data call notification through the website of KSHEC
- Data call notification through the website of universities in the state
- Data call notification through the advertisement published in popular reputed journals like Current Science, Economic and Political Weekly (EPW)

- Data call posts through various social media platforms

Present work has explored the above sources for data collection includes statistics on a variety of associations, networks, community organizations, clubs and societies, including non-profit, political, educational, professional, scientific platforms. Ministry of Foreign Affairs & State

**Fig. 1: Building Up Database-levels of data collection**

government organisations had great potential to provide basic information regarding diaspora organisations abroad. Figure 1 shows various levels of data collection undertaken in the study. Associations functioning abroad, combined with a database of local education institutions can influence people to participate in this move. Such information appeared to be most useful to identify partners for collaboration institutions in the state and abroad.

## **2. Data Format**

Firstly, the primary database prepared is based on Data Capture Format (DCF) designed for this purpose. As part of collecting the details of scholars who are working/residing outside the state, this DCF is made available on the web-portal created for this purpose attached to the KSHEC webpage. Which could facilitate the individuals who are willing to participate in this project, to provide their personal & contact details in it. This could garner two groups of scholars i.e., one group of scholars from abroad and other group outside Kerala but within India. As this portal collects the information of individual scholars from different areas of specialization, this database is considered to be the primary data ready for effective use at any time. These individuals have offered their willingness to associate with the brain-gain drive of the KSHEC & future association with the initiative that can contribute the welfare of higher education in the state. The attractiveness of this database is that it is evolving in a day-to-day basis.

The portal link [[http://159.89.167.203/kshecpportal/public/index.php/braingain\\_registration](http://159.89.167.203/kshecpportal/public/index.php/braingain_registration)] opens up an online datasheet for registration by scholars for making entries of their basic

personal information and also the provision to recommend any such other person of their contact falling under the eligible category.

The DCF collects only the basic information of individuals through this portal, which includes:

- Name
- Email
- Institution/Industry attached
- Specify the broad area of industry/research/academics/etc. currently engaged with
- Frequency of visit to Kerala
- Name the industry/academic/institution/etc. in Kerala to which professionally/academically collaborated, if any
- If you recommend any other scholar, please give his/her name and email id

**Fig. 2: Data Capture Format (portal registration)**

The screenshot shows the registration form on the Kerala State Higher Education Council (KSHEC) portal. The header includes the council's name in English and Malayalam, contact information (0471-2301292, heckerala@gmail.com), and social media links. The form title is 'Building up Database of the Keralite-Academic Diaspora around the Globe'. The fields are: Name (text), Email (text), Institution/Industry attached (text), Specify the broad area of industry/research/academics/etc. currently engaged with (text), Frequency of visit to Kerala (dropdown menu), and Name the industry/academic/institution/etc. in Kerala to which professionally/academically collaborated, if any (text).

Secondly, it is understood that information available about the community organisations/ malayalee organisations functioning outside Kerala could be a major contributor to this initiative. Through recognized sources provided in government of India and state agencies, a large list of such organisations abroad is collected. They have been asked to circulate this information among their members in which a significant number may respond in due course of time. This

database can be utilised for future purpose. Details like name of the organisation, contact details, web address are collected.

Thirdly, the contact details of large number of individual scholars, experts, professionals of various disciplines are collected from different sources and have been communicated personally to gather their institution details and willingness. Many have turned to have registered in the portal facility of brain gain.

The above three categories of data generation have made a considerable output which have been enlisted in Chapter 3.

In the wake of intensive restrictions imposed during the major part of the project period due to the Covid-19 pandemic, travel component for data collection could not have occurred fully. One data entry assistant has been employed for the purpose of data collection and data entry during this period since the second month of commencement of the project. This has been done as per the provisions of the project proposal based on a monthly remuneration of amount maximum to Rs. 20000/-.

All universities in the state have been intimated about this project with wider circulation among their faculty/institution contacts and affiliated institutions. News-paper release and other social media platforms are used for adequate coverage, in addition of reaching out to individuals and organisations. A brief one-page advertisement has been designed and posted across various social media. The same is made for the advertisement in online-offline editions of popular journals of generic nature of Indian origin ie., *epw* and *current science*.

## Chapter 3

### Outcome of the Work

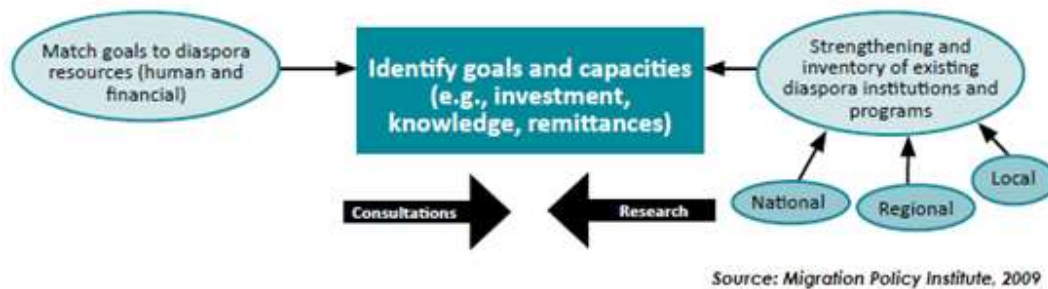

#### 1. Results-overview

Countries across the globe have made various strategies to engage its diaspora abroad, for innovative developments projects/activities of home country. India and China, have in recent years given priority to encouraging diaspora entrepreneurs and highly skilled professionals to develop activities in their countries of origin (Agunias & Newland, 2012).

The purpose of this project is to enhance the collaborative initiatives particularly in the field of higher education for the overall enhancement of the quality & environment of higher education and research presently going on in the state. The responses obtained and database collected necessitate the need of comprehensive plan for utilising such discipline wise details scholar/professional/expert of Keralite origin working abroad. There are a couple of studies describes various methods in engaging diaspora of different communities & countries. Some of them are worth mentioning.

The first step for any government in devising a strategy to facilitate stronger diaspora involvement in development is to identify its own goals in undertaking this pursuit and to define the internal tools and mechanisms required for the task. For countries of destination, the strategy may differ according to the characteristics and origins of the diasporas engaged (Agunias & Newland, 2012).

Fig. 3: Steps in devising a strategy for diaspora involvement

It is understood that, the Government of India has constituted a High-Level Committee on the Indian Diaspora to analyze the location, situation, and potential development role of the estimated 20 million nonresident Indians (NRIs) and persons of Indian origin (PIOs).

Presently as on the completion of the project, we could obtain response from 190 scholars currently working in different institutions/areas in various countries, who have registered with the portal (Appendix Table 1) on KSHEC. This list is termed as Scholars -registered (abroad). The same registration portal could also obtain details of 100 individual scholars working in different academic/research institutions within India but outside Kerala (Appendix Table 2). This list is termed as Scholars registered (within India).

Since the portal registration by scholars cannot be expected to be complete or absolute in a prescribed time limit, contact details of individuals working in different capacities (including researchers, academicians, professionals, technocrats, doctors etc.) have been collected and are contacted through email. A comprehensive list of such persons working in different institutions around the world is collected and provided in this work as list of Scholars-collected (Appendix Table 3).

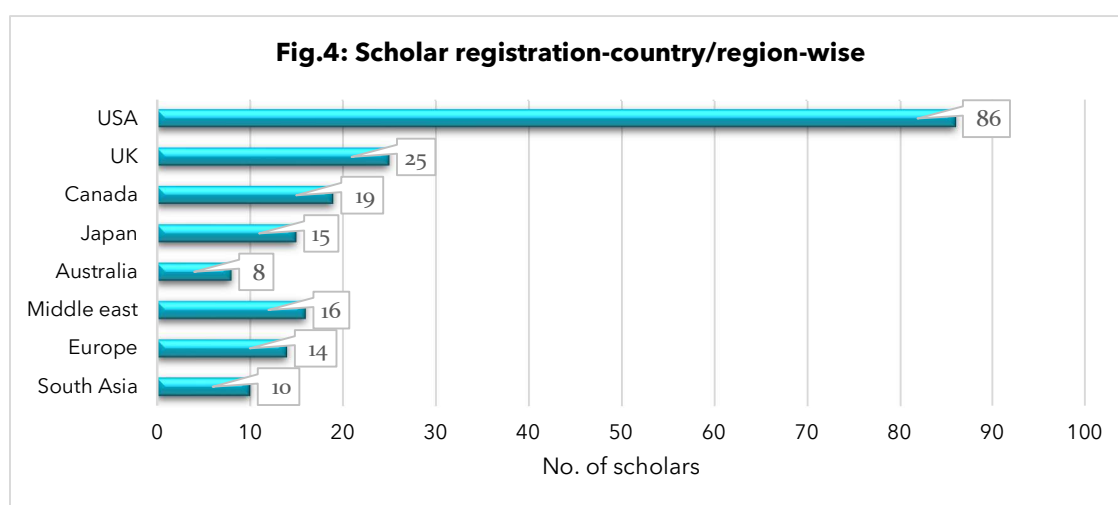

A major contributor of building up database of scholars is considered to be the Keralite/malayalee associations functioning in different countries. The records available in MoEA & NORKA-ROOTs etc. provides a list but have either confined to those of selected countries or recognized. The list included about such organisation as part of this work is consists of all formal or informal organisations across the globe. We could obtain details of 269 diaspora malayalee organisations functioning abroad, which have authentic contact details. Only those organisations/associations having a valid address are enlisted here, and have been contacted for this project (Appendix Table 4).

## **2. Scholars-Registered (abroad)**

The list of scholars from abroad registered in the portal of the KHEC contains 190 individuals from different subject areas/institutions. They have also expressed their willingness for extending their support and association with any academic or research endeavors of the government of Kerala. Many have applauded these efforts to brining a platform for future collaboration and association with various institutions in the state and state government

initiatives. The remarks they made about this initiative is overwhelming. As mentioned above, the *Appendix Table 1* provides these details, which is given at the end of this document.

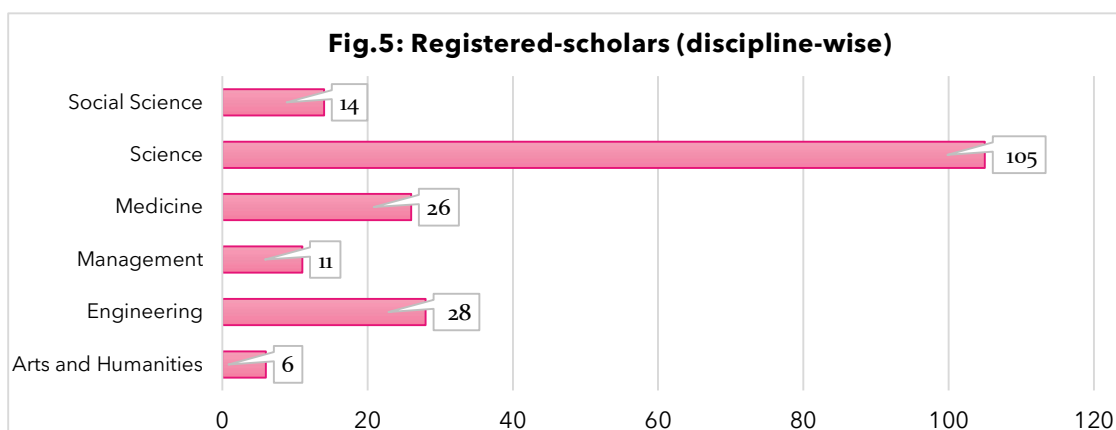

Country-wise participation in portal registration shows that scholars from USA, UK, Canada and Japan constitute the major part of this contribution and the remaining countries grouped region-wise.

### 3. Institution Collaboration

Most of the scholars maintain institution collaboration with many HE institutions and research centres in the state, in addition of university departments. There are college wise collaborations too. Majority of scholars are having research collaboration or association with multiple institutions or departments within Kerala. *Appendix Table 5* shows the list of institutions to which scholars have research collaboration/or academic association in Kerala. Most scholars registered with the portal has institutional/department wise collaboration with their area of specialization. Their responses shows that many of them are interested to engage with such academic or research activities if this initiative provide a platform for this. Scholars who have registered with the portal have mentioned their collaborating/associated institutions for research /industry/academic activities. Large number of young scientists have responded very positively and have shown keen enthusiasm for association with the government of Kerala or

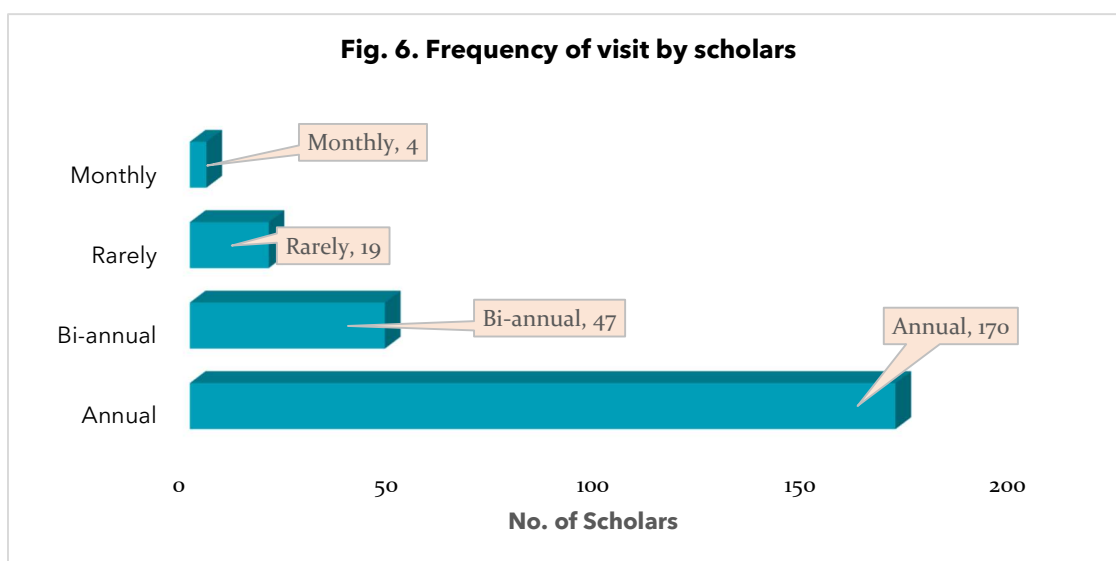

institutions within the state in areas of their operations. Figure 5 shows the discipline wise chart of scholars who registered in the portal.

#### 4. Frequency of visit

Another important information is the details or nature of visit by these scholars to their home place in Kerala. This database has collected the frequency at which the scholar visits the state. As per the data, majority of them used to visit the state in annual basis. Such a data is useful when there is a mechanism is developed to track their visit and coordinate with the institution of their choice or the most proximate institution for the conduct of any programme in which this scholar can have time to spend with. This will benefit the academic community as otherwise it would consume much time of the visiting scholar. In addition to this, the Erudite-scholar in residence programme can also be benefitted by doing this, when a noted scholar/scientist of Keralite origin visits his/her country, valuable time of scholar can be utilized most effectively and productively. In Figure 6, their frequency of visit to Kerala is represented through a chart.

Since the registration in the web portal maintained by the council is a continuing process as the scholars can register in this portal at any point of time, the list of scholars gets expanded one day to day manner. As on the closing date of the project period by October 31<sup>st</sup> 2021, the total number of the registered scholars have reached 190 who belong to different disciplines and domains, in the brain gain portal.

As scholars from different institutions spread across 26 countries, registered their name and details with the portal and a few of them, i.e., 33 have recommended/suggested other scholars within their area of work. Institution distribution map marks with numbers (cluster of institutions) created using *Geocode on Google's services* shows the institutions/countries to which these scholars are presently affiliated. Figure 7 shows the map which represents the countries/institutions to which the scholars are affiliated. As on the expansion of the data over the time, various pattern of distribution like specialization areas, other details of the scholars through appropriate maps can be prepared.

### 5. Scholars registered (*within India*)

As figured in the above section as *Appendix Table 2*, the list of scholars /subject experts working or associated with institutions situated in India have also registered with the portal. These data of scholars from prestigious institutions in India registered is also considered to be a significant component for future use. Many of them represent emerging areas of knowledge and reputed institutions in the country. They include senior scientists, research scholars etc. and sometimes retired professionals also. Presently such a database of scholars of Keralite origin working/associated with top rated institutions in the country is lacking, which could have been used for various academic or research fields and for empaneling them for various purposes.

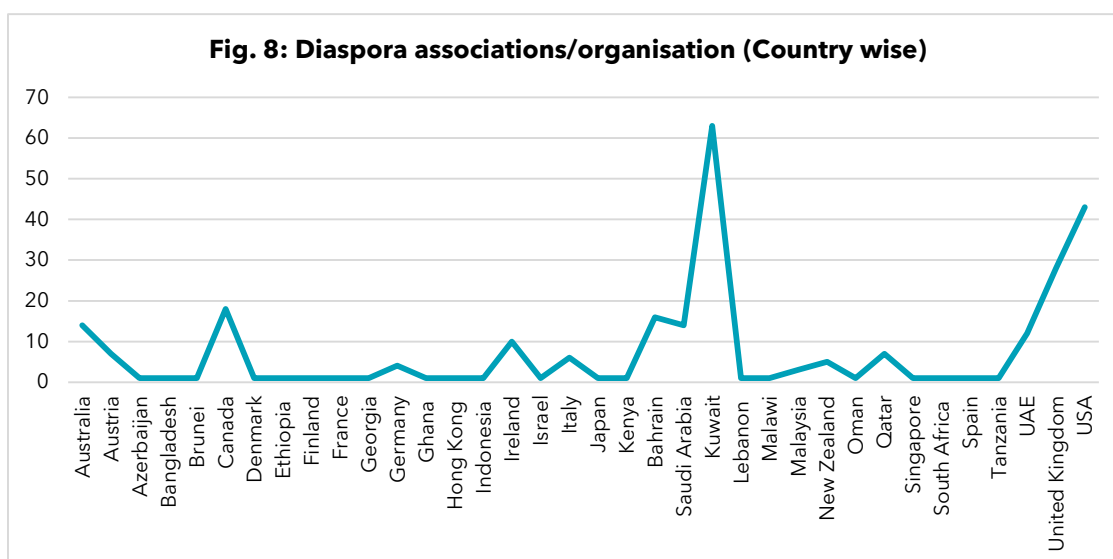

**Fig.7: map shows countries & institutions of scholars**

## 6. Diaspora Organisations

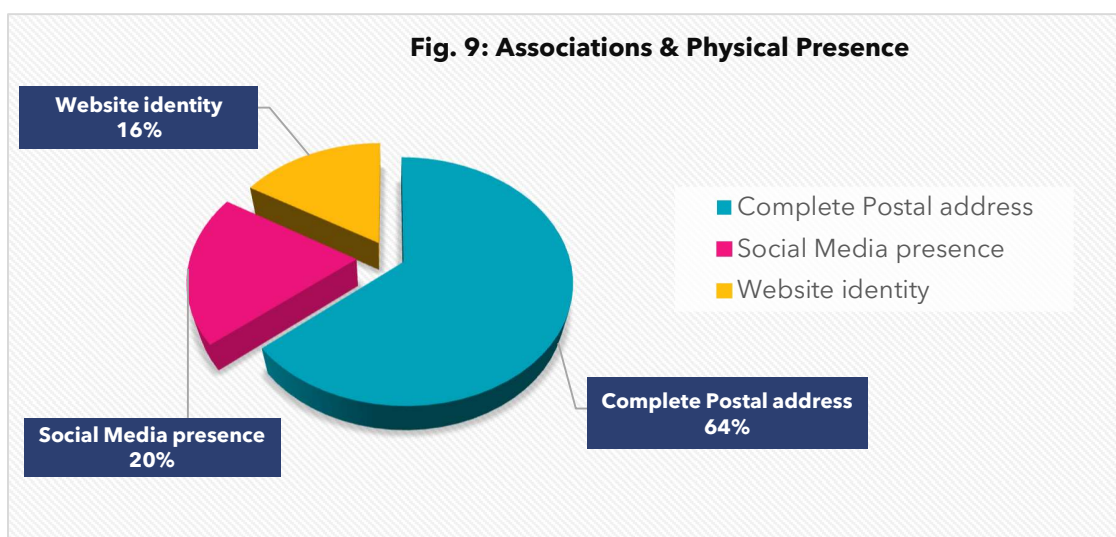

An "association" becomes an institution when individuals with shared ideas and memory come together and form it for retaining their cultural security (Goyal & Mukherjee, 2013). Different diaspora and their organisations have become crucial players in rural and community development in Africa and elsewhere in the world. Thus, governments have devised policies and implemented measures that simulate the diaspora's engagement in development activities. These changes are motivated by the change in perception of the role of diaspora from being merely the senders of financial remittances to co-development actors. Diaspora are therefore considered to have unique potential for bridging the different contexts to which they simultaneously contribute, as well as engaging in long-term development activities (EADPD, 2012). The Government of Kerala had collected details about the registered malayalee associations abroad, particularly in middle east countries through NORKA ROOTS. ([http://www.norkaroots.net/Gallery09/associations\\_abroad.pdf](http://www.norkaroots.net/Gallery09/associations_abroad.pdf)).

While there is a growing policy interest in tapping, mobilizing and channelling diaspora contributions, the role of policies should be clearly defined, and the approaches that can effectively facilitate the engagement of diasporas for development understood to ensure that diasporas are not deprived of the ownership of their contributions (Dina Ionescu, 2006).

After a having done web-combing and the use of other resources available regarding various organisations across the world, the present work has collected the authentic details of 269 organisation of Keralite/malayalee community which is given in *Appendix Table 4*. The country-wise distribution of diaspora organisations are given in the graph. They have responded to this information by communicating with their members for wider coverage of this initiative. Figure 8 chart shows the number of diaspora organisations about which the details are collected.

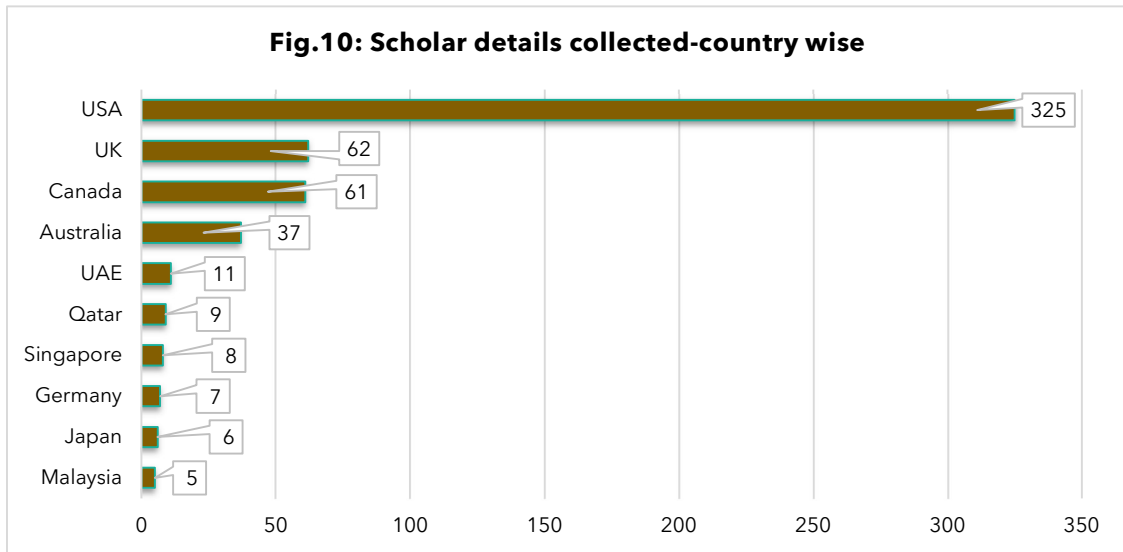

Many organisations are functioning without any physical presence but on virtual/social media/or web address. A chart represents the data about such organisations based on available details are shown in Figure 9. They are found organizing functions & activities related to the community engagement. Active physical presence is noted for only 67% of the organisations, whereas, 16% has been identified only in their web pages and about 20% of them are solely on social media platforms like, Twitter, Facebook etc. Although these associations/organisations have been identified from the list available from the Ministry of External Affairs or NORKA-ROOTS, a large number of such associations are functioning on virtual /online platforms, not with their physical address or presence. But there is all likelihood that most of them can make contributions to this project by circulating this information to their fellow members so that they can register with brain gain portal facility later.

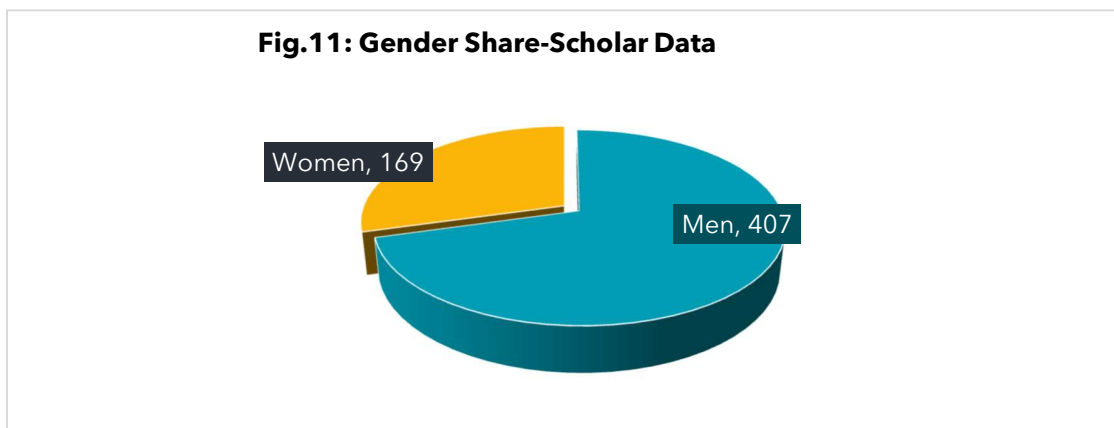

Those organisations without any proper address or website have been excluded in the report. Much of the above collection was made by visiting various ministries and embassy websites, Ministry of External Affairs, India Government & NORKA of Government of Kerala.

## 7. Scholar list -Collected

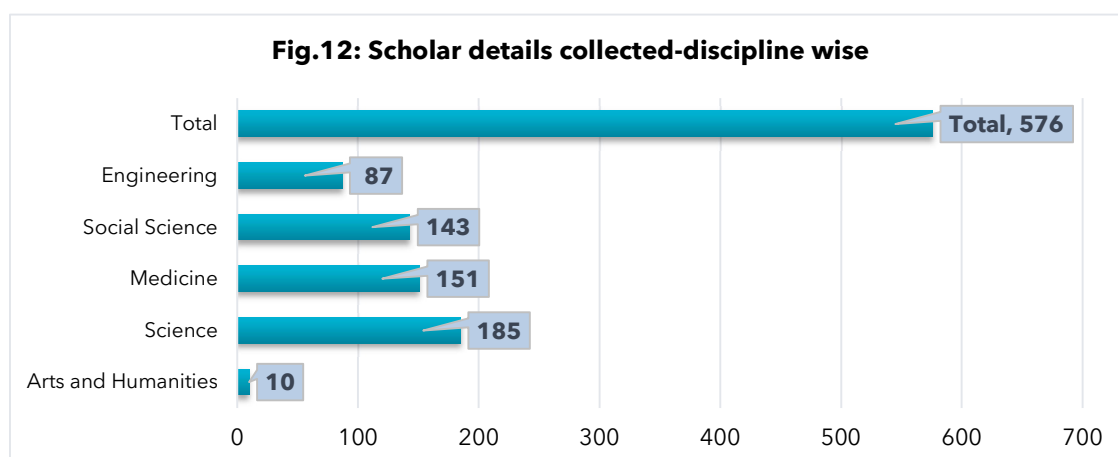

In order to address a vast number of scholars of Keralite not yet registered in the brain gain portal, contact details of a large number individuals working in various institutions have been collected manually through web search. They belong to different domains of specialization and their area of involvement is provided in detail in *Appendix Table 3*. This list contains a total number of 576 scholars belong to various domains of knowledge. This web combing was primarily focused to collect details of persons who have been associated with research and academic institutions and scholars belong to emerging areas of knowledge. This has made very helpful impact on rising the number of registrations also. The primary source for such a data is web combing and other mode of communication made separately to the individuals. It is noteworthy to state here, that the Vice Chancellor of Mahatma Gandhi University has taken effective steps to collect scholars' data from the respective university departments and to provide such data to us. Other universities have not shown similar enthusiasm for this initiative. It is expected that in future, the contributions from other universities can bring significant expansion of this database.

Among the country of their institutions in which the scholars are engaged with, USA tops with a total of 325 scholars who are contacted, and followed by United Kingdom, Canada, Australia and United Arab Emirates. Out of the total number of 576 scholars spread across the world and working or associated with various domains of academic/industry related, 407 are men and 169 are women. Figure 11 shows the gender distribution among the scholar data collected. It is also noteworthy that their subject area of engagement is confined seldom with any particular subject, but mostly of interdisciplinary or multi domain character.

In general, we have categorized these subject areas in to Arts and Humanities, Engineering, Medicine, Science and Social Sciences. Figure 12 shows the chart represents discipline wise scholar details collected.

The major component of this scholar list belongs to sciences disciplines followed by Science, Social Science, Medicine, Engineering & Arts and Humanities. Except Arts and Humanities, others constitute significant share in total number of scholars.

## 8. Outcome of the study

The present study has made a rich resource of scholars from different areas ranging from academic to engineering, humanities to medical and particularly from the emerging areas of knowledge. The most important aspect of this database generation mechanism is that the portal is always open for those who ever willing to register their name in to this initiative. The ever-improving list of scholars from abroad is enabled as part of the registering/or data capture format available on this portal attached with the website of the KSHEC.

Therefore, the database registration mechanism built up here through various method has paved way for improving the quality of this database as well as improving its utility for future course of action. Though the number of scholars registered in on the web portal is currently being a small part of the academic diaspora of Keralite origin spread across the world, its expansion is expected to be gradual and through consistent effort through wider publicity and contact. The list of associations mentioned in the report is more or less complete, and many

organisations do function nowadays through social media network. It is important that the universities/research institutions in the state have a major role in contributing to the building up of this database.

It is also desirable to publish a roadmap /action plan for the future mode of action for utilising the database for improving quality of higher education in the state from the authoritative part of the government, so that a large number of academics, experts and scholars would be attentive/promoted to collaborate with this initiative. The responses received from many scholars in connection with this project have proven their interest and enthusiasm to engage with any academic initiatives of their home state.

The individuals & associations as per the Appendix 3 & 4 tables, need to be repeatedly contacted in future too so that many of these individuals will cooperate with this programme. The scholars registered in the portal have opted to choose or recommend their colleagues/research partners for registration. Further scope of study rests with the framing of schematic planning for the effective implementation of the database for its intended purposes.

**It is pertinent to note at this point that operationalise any of the objectives envisioned in "BRAIN GAIN- database of Academic Keralite diaspora" as its utility part can send a message of trust and association among international community of scholars & professionals of Keralite origin for joining with this valuable initiative of the state government.**

## **Conclusion**

The present work could generate a database of Social Scientists, Humanities Experts, Medical Professionals, Technocrats, Economists, Environment and Management Experts working in the famous Universities and Research Institutions the world over and specializing in emerging areas of knowledge. A collection of information about scholars and professions of Keralite origin is a new initiative and forms a pivotal resource base for meeting the objectives envisaged in the project. This has been achieved through this work. A comprehensive list of diaspora organisations has also been developed. Item no. 1 & 2 of the following table is an ever-enhancing manner, which is open for registration by scholars from anywhere in the world to

register in the portal. Item no. 3 is the details collected through various resources. This also can be expanded in the future. The list of diaspora organisations is almost complete as of now.

Table 2: List of categories and database population

No.	Category	No.
1	Scholars registered (abroad)	190
2	Scholars registered (within India)	100
3	Scholars database (collected)	576
4	Diaspora Association (abroad)	269

## **Chapter 4**

### **Scope of Further Study**

#### **1. Future Prospects of Brain Gain**

The project brain gain has two parts firstly, building up/enriching the database on time-to-time basis and secondly, database management for enhancing the quality of higher education and research in the state. Both demands and features consistent plan of action so that an effective & sustained mechanism of database utility can be achieved. Unless there is such a vibrant mechanism to systematically enhance the existing database in a real-time-basis and an effective utility of this scholar resource, the project will soon become dormant or dead. While there is ample scope for fruitful collaboration and association of these scholars of various disciplines or with their institutions abroad, this system offers mutual benefits for the stakeholder institutions and individuals in the state Higher education sector. This will eventually benefit for the quality enhancement of HE sector and to the state's knowledge capital.

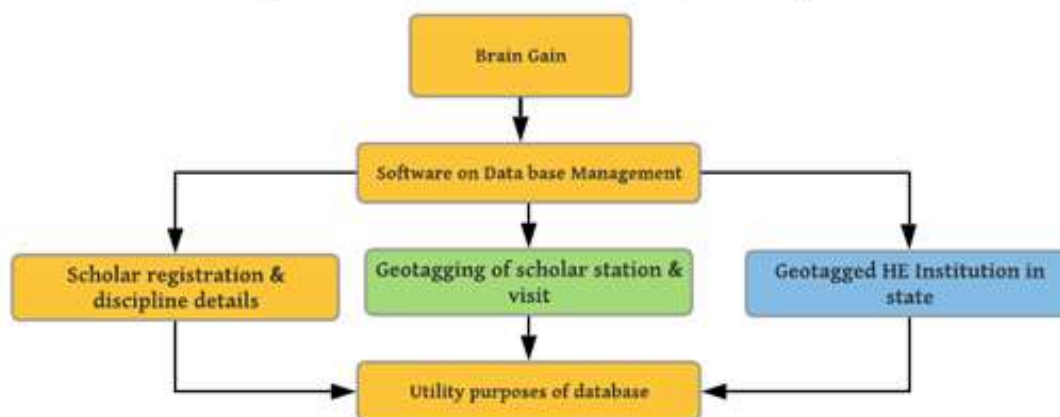

- Maintaining and updation of portal facility for a minimum period of one year
- A working strategy to accomplish the database utility & the overall objective originally envisioned.
- Discipline wise & institution wise collaboration plan of data management on Real-time basis and its integration with HEIs in the state
- Eminent scholars can be picked up for Erudite-Scholar in residence programme of KSHEC. Presently scholars invited in Erudite-Scholar in Residence programme are of Nobel laureate or those with similar academic credentials.
- Device a plan for building up a panel of international experts of Keralite origin for state's policy decisions in higher education through advisory cum intellectual support
- Roadmap for of research collaborations, industry partnering etc. in broad areas of science, technology, and social sciences can be significantly influenced by the effective utilisation of this database
- Formulate a scheme for universities and affiliated colleges through which they can engage these scholars as experts for academic programmes, collaborators, and co-supervisors in researches as per the need and resources of the institutions and vice versa.

### Brain Gain Database Management System

As the database is ever evolving one and can be a huge one at a point of time, an effective management system needs to be developed for practice so that the operational part of this database become fruitful. All such plan of action mentioned in the previous section can be fulfilled through a dedicated service of *Brain Gain Database Management System* using appropriate software, which can facilitate *registration by scholars, their details, instances of visit, institutions of interest in Kerala, nature of collaboration, outcome of individual activity* (this list is more descriptive) as in the Figure 13 shown below.

Fig.13: Brain Gain database Management System

Such a database management will cover all the process of scholar registration and database utility services for meeting various objectives of Brain Gain project. In addition to the above-mentioned utilities, the long term goal of brain gain project can be effectively translated in to practice only when a robust system of database management is formulated.

## Testimonials about the project

*"I will be delighted to register in the forum being a Keralite Malayalee in Australia"*

**Dr. Premnadh M Kurup,**  
School of Education  
College of Arts, Social Sciences and Commerce (ASSC)  
Melbourne Campus,  
La Trobe University  
Victoria 3086, Australia

*"This is a great initiative to get connected and to contribute towards Higher education in Kerala. I completed my education in Kerala (including a Ph.D.) and have been fortunate to get a world-class education from my state of Kerala. Hence, giving back to the same community is a blessing"*

**Neetha Nanoth Vellichirammal**  
School of Biological Sciences, University of  
Nebraska-Lincoln, Lincoln, NE 68588

*"I will be trilled to help you and Kerala in any way I can. I had already registered in the web"*

**Prof. Madhavan Nair,**  
Dept of Immunology and  
Nano-Medicine  
Director, Institute of NeuroImmune Pharmacology  
College of Medicine.  
Florida International University  
11200 SW 8th St, University Park

*"Many thanks for your email. I have done the registration. It is a great initiative. All the best for your efforts"*

**Dr. Brijesh Sathian**  
Scientist, Geriatric Medicine Department, Rumailah  
Hospital, Hamad Medical Corporation, Doha, Qatar,  
P. O.

*"This is an excellent initiative! Let me know how I can help! I look forward to hearing from you"*

**Kapil Chalil Madathil**  
Wilfred P. Tiencken Endowed Associate Professor  
College of Engineering, Computing and Applied Sciences  
Departments of Civil and Industrial Engineering,  
Clemson University

*"I will be more than happy to be a part of this initiative and I have completed registration as per your advice"*

**Rahul Vijay, DVM, Ph.D**  
Assistant Professor  
Center for Cancer Cell Biology, Immunology and  
Infection  
Department of Microbiology and Immunology  
Chicago Medical School, Rosalind Franklin  
University, 3333 Green Bay Road, North Chicago

*"Thank you for your email and congratulations on this great initiative to build a database of Keralite-Academic Diaspora. I will complete the registration process on KSHEC"*

**Sujit S. Nair, PhD**  
Assistant Professor  
Director of GU Immunotherapy Research  
Icahn School of Medicine at Mount Sinai | Department of Urology  
1468 Madison Avenue, 24-15 | New York, New York 10029

189	Vimala Nair	University of Florida	USA	<a href="mailto:vdn@ufl.edu">vdn@ufl.edu</a>	Soil processes that affect the fate and transport of phosphorus; the benefits and challenges of land application of biochar; carbon sequestration in agroforestry systems.	Annual
190	Vishnu Muraleedharan Saraswathy	Washington University in St Louis, MO, USA	USA	<a href="mailto:vishnums007@gmail.com">vishnums007@gmail.com</a>	Spinal cord regeneration	Annual

**Table 2**

List of Scholars registered (within India)

No	Name of Scholar	Institution	email id	Area of specialisation
1	Abhijith Jose	World Health Organization- India	abhijithjose111@gmail.com	Tata Institute of Social Sciences-Social Epidemiology
2	Ajay Peethambaran	Class NK/Maritime Industry, Japan	ajayshiptec@gmail.com	Policies for low carbon and sustainable maritime industry
3	Ajil M.	Centre for Development Studies (CDS), Trivandrum	ajilmankunnummal@gmail.com	Applied Economics
4	Anand B.	Narsee Monjee Institute of Management Studies-Mumbai	anandbpu@gmail.com	Economics
5	Aswathy Rachel Varughese	Institute for Social and Economic Change (ISEC), Bangalore	iamaswathyvarughese@gmail.com	Development Economics, Macroeconomics, Environmental Economics
6	Babu Koshy Konnayil	Multinational Financial Institution	babukk@gmail.com	Financial Industry/APAC Regional Management/Information Technology/Datacenter Management/IT Continuity
7	Beena K.	Ktctct College of Arts and Science	beenaradhakrishnan73@gmail.com	BA political science
8	Biju Dharmapalan	Vigyan Prasar, Department of Science & Technology, Govt. of India	bijudharmapalan@gmail.com	Science Communication

No	Name of Scholar	Institution	email id	Area of specialisation
9	C.P. Safvan	Inter University Accelerator Centre, New Delhi	cp.safvan@gmail.com	Atomic and Molecular Physics, Accelerator Physics
10	C.S. Siva Prasath	Synthite Industries Ltd, Kerala	sivaprasath@synthite.com	Vaccine, Food industry
11	Deva Prasad M.	Indian Institute of Management Kozhikode	devaprasadm@gmail.com	Law (Environmental law, Human rights and Business law), Governance and Regulatory Governance
12	Dhanaj K.M.	Start up and Incubator/Accelerator	dhanajkris@gmail.com	Innovation and Entrepreneurship
13	Dr. Kishor Mohanan	CSIR - Central Drug Research Institute, Lucknow	kishor.mohanan@cdri.res.in	Chemical and Pharmaceutical
14	Dr. Moitreyi Banerjee	Department of Zoology, University of Goa, University of Goa	bmoitreyi@gmail.com	Molecular biology, aging, neuroscience and neuro-endocrinology. Have done extensive research in the area of proteomics, neuro-endocrinology and neuroscience.
15	Dr. Babitha Rani	ICAR-Central Institute of Fisheries Education, Mumbai	babitarani@cife.edu.in	Aquaculture
16	Dr. Balasubramanian C.P.	Central Institute of Brackishwater Aquaculture (ICAR), Tamil Nadu	CP.Balasubramanian@icar.gov.in	Fish and Fisheries Science

No	Name of Scholar	Institution	email id	Area of specialisation
17	Dr. Gireesh Kumar T.K.	Department of Library and Information Science, Banaras Hindu University, Varanasi, PIN: 221005, Uttar Pradesh	gireesharci@gmail.com	Open Source Integrated Library Management System, Open Education Resources, Cultural Heritage Information System, Electronic Resource Management System
18	Dr. Guruvayoorappan C.	Regional Cancer Centre, Thiruvananthapuram	gururcctvm@gmail.com	Cancer research; Drug Delivery
19	Dr. K.Suthindhiran	Vellore Institute of Technology, Vellore, Tamilnadu	sudhindhira@gmail.com	Diversity and exploitation of marine microorganisms
20	Dr. Kuriakose Mathew	Social Sciences, Amity University Kolkata	mathew.kuriakose83@gmail.com	Social Sciences.
21	Dr. M.A.Jayasri	Vellore Institute of Technology, Vellore, Tamilnadu	jayasri.mangalam@gmail.com	Pharmacological evaluation of terrestrial and marine natural products including plants and algae
22	Dr. M. Jayanthi	Indian Agricultural Research Institute, Pusa, New Delhi	jayman21@gmail.com	Plant tissue culture, Genetic engineering, Research administration
23	Dr. Manu Lopus	UM-DAE Centre for Excellence in Basic Sciences, Mumbai	manu.lopus@cbs.ac.in	Nanomedicine, Cancer Biology, Herbal Medicine
24	Dr. P.C. Abhilash	Senior Assistant Professor in Sustainability Science,	pca.iesd@bhu.ac.in	Agroecosystem Specialist Group of IUCN-Commission on Ecosystem Management.

No	Name of Scholar	Institution	email id	Area of specialisation
		Institute of Environment & Sustainable Development, Banaras Hindu University, Varanasi, India		He is a fellow of the National Academy of Agricultural Sciences, India.
25	Dr. R. Alexandar	Independent Researcher (Currently)	enviroalexandar@gmail.com	Ecology & Environmental Sciences
26	Dr. Rajendran K.V.	Aquatic Environment and Health Management Division ICAR-Central Institute of Fisheries Education, Versova Andheri west, Mumbai, 400061	kvrajendran@cife.edu.in	Aquatic Animal Health Management
27	Dr. Sherly Tomy	Principal Scientist Nutrition, Genetics and Biotechnology Division ICAR-Central Institute of Brackishwater Aquaculture MRC Nagar, Raja Annamalai Puram Chennai, Tamil Nadu 600028	Sherly.Tomy@icar.gov.in	Crustacean Molecular Endocrinology
28	Dr. T.H. Ansar	Academy of Prisons and Correctional Administration Vellore	ansarhameed83@gmail.com	Research and Training in Corrections, Criminology and Human Rights
29	Dr. Vijay Subhash Yeul	Chandrapur Super Thermal Power Station, MSPGCL, (Govt. of Maharashtra u/t)	vijay.yeul@gmail.com	Chemistry & Environment
30	Dr. Vikram Gopalakrishn Pillai	Department of Biophysics, Institute of Medical Sciences, Banaras Hindu University, UP 221005	vgpillai@bhu.ac.in	Biophysics, Structural Biology

No	Name of Scholar	Institution	email id	Area of specialisation
31	Dr. Vineeth Sahadevan	St. Claret College, Bengaluru	vineethsahadevan@gmail.com	Anthropology/Sociology
32	Dr.K.S.Nandakumar , Ph.D	Independent and freelance . Previously with PGIMER, Chandigarh, DBT-NCCS, Pune, Zydus Research Center, Zydus Cadila, Himalaya Drug Company, Bangalore, ITC LSTC, ITC Limited , Bangalore	nandk6@hotmail.com	Biomedical Research various human health conditions, In vitro Biology and Animal Tissue and Cell Culture for pre-clinical research, New Drug Discovery Research, Herbal Drug Bio-assays, Functional Food Research, Personal care product research, Clinical Research, Collaboration
33	Dr.Pawan Deorao Tayade	Sant Gadage Baba Amravati University, Maharastra	pawantayade2014@gmail.com	Dr. Ambedkar on Human Rights, Social justice
34	Eluvathingal D. Jemmis	Indian Institute of Science, Bangalore	jemmis@iisc.ac.in	Theoretical chemistry
35	Golda K.S.	Inter University Accelerator Centre, New Delhi	goldaks@gmail.com	Nuclear Physics
36	Gopalakrishnan Menon	SRH Nutritions LLP,Vadodara	gopalakrishnan2k5@gmail.com	Biotechnology/Life Sciences/Pharma
37	Hashir Sheheem	Tata Institute of Social Sciences, Mumbai	hashirshaheem@gmail.com	Psychology & Minority Mental Health

No	Name of Scholar	Institution	email id	Area of specialisation
38	Indira Rani S.	NCMRWF, Ministry of Earth Sciences, Noida, Uttar Pradesh	indirarani.s@gov.in	Satellite data processing and assimilation for Numerical Weather Prediction
39	Jishnu B.K.	Geological Survey of India, Mangalore	jishnu.gsi@gmail.com	Offshore Marine Survey and Exploration
40	Kavitha Sankaranarayanan	AU-KBC Research Centre, MIT Campus, Anna University, Tamil Nadu	skavitham@yahoo.com	Electrophysiology, Drug Discovery, Membrane Biology, Ion channels, Agricultural Biology
41	Kiran Johnson	MIT-World Peace University, Pune	kiranjohnson9@gmail.com	Social Sciences
42	Krishnakumar S.	Sri Venkateswara College, University of Delhi	skkumar@svc.ac.in	Macroeconomics, International Economics
43	Manas M.	Wadia Institute of Himalayan Geology (WIHG), Dehradun	manas.kurup@gmail.com	Geological Research
44	Mini Thomas P.	Dept. of Economics & Finance, Birla Institute of Technology and Science (BITS) Pilani, Hyderabad Campus, India	minithomas26@gmail.com	Economics
45	Mr. Jlibin K.P.	School of Chemical Sciences, Mahatma Gandhi University, Kerala	jibinkp999@gmail.com	Chemistry
46	Muhammed Afzal P.	Department of Humanities and Social Sciences, Birla Institute of Technology	muhammedafzalp@gmail.com	Popular culture in Asia, Intellectual and Cultural History of the Left in India,

No	Name of Scholar	Institution	email id	Area of specialisation
		and Science, Pilani (BITS Pilani), Rajasthan		Language Politics, and Kerala Studies.
47	P. Sugathan	Inter-University Accelerator Centre, New Delhi	Sugathan@gmail.com	Experiments in Nuclear Physics using Particle Accelerator
48	Reno Isaac Philip	FinTech	renoiphilip@gmail.com	FinTech
49	Sajan Daniel George	Manipal Academy of Higher Education, Karnataka, India	sajan.george@manipal.edu	Photonics, Biophotonics, Nanoscale Surface Engineering, Sensors, Applied Nanosciences
50	Sandhya Misra	Birbal Sahni Institute of Palaeosciences, Lucknow	sandhyabsip@gmail.com	Quaternary Palaeoclimate and palaeovegetation study using Palynology (pollen, diatoms and phytolith data)
51	Sankar Varma	Department of Economics, Christ (Deemed to be University), Hosur Road, Dharmaram Post, Bengaluru, Karnataka 560029	sankarvarma93@yahoo.com	Economics (Political Economy, Marxian Economics, Urban Development and Exclusion)
52	Sarga T.K.	CSRD/JNU, New Delhi	sargatk.tk@gmail.com	Geography

91	Dr. Jafar K.	Madras Institute of Development Studies,#79, 2nd Main Road, Gandhi Nagar, Adyar, Chennai, Tamil Nadu 600020	jafkizha@gmail.com	Education and development, Migration, Human Development, Social policy, Gender, Financial Inclusion, IPRs
92	Vivek M.	Indian Institute of Astrophysics, Bangalore	getkeviv@gmail.com	Astronomy and Astrophysics
93	Sujayasree O.J.	ICAR-Indian Agricultural Research Institute, New Delhi	sujaya.iari2016@gmail.com	Horticulture-Postharvest Technology
94	Hariprasad M.G.	Institute for Plasma Research	hari.prasad@ipr.res.in	Experimental Plasma physics, MATLAB, IDL coding.
95	Nisar A.C.	Researcher, Philosophy, IIT Bombay	nizarac@gmail.com	Philosophy; Phenomenology, Dialectics, Social and Political Philosophy, Social ontology, Social and institutional fragility

No	Name of Scholar	Institution	email id	Area of specialisation
96	Urmila Unnikrishnan	Jawaharlal Nehru University, New Delhi	Urmila.unnikrishnan@gmail.com	Social history of Science in Colonial Kerala
97	Sandhya M. Das	PhD Scholar, CDS, Trivandrum , Deputy General Manager, National Bank For Agriculture and Rural Development	sandhya.nabard@gmail.com	Financial Inclusion, Finance and Development
98	Dr. Santhosh Kumar P.K.	Cochin University of Science and Technology	s.kumar@cusat.ac.in	Economics, Tourism and Fisheries
99	Vivek G. Babu	Indian Institute of Technology (ISM), Dhanbad	vivekgbabu@gmail.com	Geophysics /Seismology
100	Dr. Jayachandran P. R.	Cochin University of Science and Technology	jayachandranpr@cusat.ac.in	Marine Ecology, Bioinvasion, Invasive species, Marine Pollution

**Table 3**

List of Scholars (Abroad)-Collected

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
1	Aarathi Prasad	Office: CIS 240B, Skidmore College, 815 North Broadway, Saratoga Springs, NY 12866	USA	Computer Science	aprasad@skidmore.edu
2	Abdu Sadik Kunnath	Department of General Education at Gulf Medical University, Ajman, UAE	UAE	Islamic Studies	abdu@mygmu.ac.ae
3	Abdul A. Rasheed	Department of Management, The University of Texas at Arlington, Arlington, Texas	USA	Management-Corporate governance, globalization of capital markets, lobbying, outsourcing	abdul@uta.edu
4	Abdul Rasheed Pattath	Clinical Anesthesiology, Anesthesiology, Weill Cornell Medical College	USA	Clinical Anesthesiology	abp2003@qatar-med.cornell.edu
5	Abdulgafoor Muslim Veettill Tharayil	Hamad Medical Corporation, Doha, Qatar	Qatar	Clinical Anaesthesiology	abt4003@qatar-med.cornell.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
6	Abhilash Nair	P.O 65 (Viikinkaari 1), 00014 University of Helsinki	Finland	Ecology Evolutionary Biology	abhilash.nair@helsinki.fi
7	Abid Shaheer Karanghadan	Department of Biomedical Sciences, Gulf Medical University, Ajman, UAE	UAE	Biochemistry	abidshaheer@gmu.ac.ae
8	Abraham K.M.	NUCRET and Laboratory for Electrochemical Advanced Power, Northeastern University, Boston, MA	USA	Chemistry (expert on lithium-ion and lithium-ion polymer batteries and is the inventor of the ultrahigh energy density lithium-air battery)	kmabraham@comcast.net
9	Abraham Ninan	103 Hospital Drive, Saskatoon, Saskatchewan S7N 0W8, Canada	Canada	Neonatology	alninan@yahoo.com
10	Abraham Punnen	Department of Mathematics, Simon Fraser University Surrey, 250-13450 102nd AVE, Surrey, British Columbia, Canada V3T 0A3	Canada	Operations Research	apunnen@sfu.ca

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
11	Abraham Verghese	Department of Medicine, Stanford University Medical School, Stanford, CA 94305, USA	USA	Medicine (Internal Medicine, Medical Education, Story and Ritual of Medicine)	abrahamv@stanford.edu
12	Aby Abraham Thyparambil	The Software Works INC, Sachse, TX, 75048, USA / Address2:Office: 1038 ETB, Department of Biomedical Engineering, Texas A&M University	USA	Bioengineering	athypar@tamu.edu
13	Achuthan C. Raghavamenon	Department of Environmental toxicology, Southern University and A&M College	USA	Environmental Toxicology	achuthanm@gmail.com
14	Aditya G. Nair	3900 E Stevens Way NE, MEB 206, Seattle, WA 98195 / Address 2: Department of Mechanical Engineering, University of Nevada, Reno	USA	Aerospace Engineering	adityan@unr.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
15	Advaith Siddharthan	Department of Computing Science University of Aberdeen Aberdeen AB24 3UE, Scotland, UK / Address2: Knowledge Media Institute, The Open University, Milton Keynes, MK7 6AA,	UK	Computer Science and Society	advaith@abdn.ac.uk
16	Afeesh R. Unnithan	Healthcare Technology Institute, Institute of Translational Medicine, School of Chemical Engineering, University of Birmingham, Edgbaston, Birmingham B15 2TT,	UK	Chemical Engineering	afeesh@jbnu.ac.kr
17	Aisha Ravindran	Office: CCS 380, Okanagan Campus, 1148 Research Road, Kelowna, BC Canada V1V 1V7	Canada	English and Cultural Studies	aisha.ravindran@ubc.ca
18	Aiswarya Lakshmi Prabha	Department of Chemistry, South Kensington Campus, Imperial College London	UK	Computational Chemistry and molecular spectroscopy	a.prabha@imperial.ac.uk

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
19	Ajay Gopinathan	School of Natural Sciences, University of California, Merced 5200 North Lake Road, Merced, CA 95343	USA	Physics-biophysics, soft condensed matter	agopinathan@ucmerced.edu
20	Ajay Nair	Department of Horticulture, 145 Horticulture Hall, Iowa State University, Ames, IA 50011-1100	USA	Horticulture	nairajay@iastate.edu
21	Ajay Panicker	Midway Center, Room 100A-5, Metropolitan State University, Minnesota	USA	Sociology-social and political-economic changes	ajay.panicker@metrostate.edu appanicker@stcloudstate.edu
22	Ajay T. Abraham	Albers School of Business & Economics, Seattle University, 901 12th Avenue, Pigott 521, Seattle, WA 98122	USA	Marketing-meta-analysis, and eye-tracking	abrahama@seattleu.edu
23	Aji P. Mathew	Department of Materials and Environmental Chemistry (MMK), Stockholm University / Address2 : C432, Svante Arrhenius väg	Sweden	Polymer Chemistry	aji.mathew@mmk.su.se

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
		16C, 10691 Stockholm, Sweden			
24	Ajit Varki	Departments of Medicine and Cellular & Molecular Medicine, Glycobiology Research and Training Center, University of California at San Diego, La Jolla, CA 92093-0687, USA	USA	Medicine and Cellular and Molecular Medicine	a1varki@ucsd.edu
25	Ajith K. Varghese	Department of Life Science, Toronto School of Theology, University of Toronto	Canada	Clinical Pastoral	ajith.varghese@utoronto.ca
26	Ajith Kumar Parlikad	Department of Engineering, University of Cambridge, CB2 1PZ, United Kingdom	UK	Asset Management	aknp2@eng.cam.ac.uk aknp2@cam.ac.uk
27	Alex Koshy	SCI 236, Department of Chemistry, Chicago State University	USA	Chemistry-Material Scientist	akoshy@csu.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
28	Ambili Ramachandran	General Medicine Clinic - University of Texas Health San Antonio, Medicine, San Antonio	USA	Internal Medicine, Preventive Medicine	ramachandraa@uthscsa.edu
29	Amit Kakkad	Department of Operations Management, University of San Diego	USA	Operations Management	amitkakkad@sandiego.edu
30	Amjath Babu T.S.	House #10/B, Road #53 Gulshan-2, Dhaka-1212, Bangladesh P.O. Box 6057 Gulshan-1, Dhaka-1212, Bangladesh	Bangladesh	Agricultural Economist	t.amjath@cgiar.org
31	Amminikutty Jeevan	Department of Microbial Pathogenesis and Immunology Reynolds Medical Bldg., Rm. 407 College Station, TX 77843-1114	USA	Microbial Pathogenesis	ajeevan@medicine.tamhsc.edu amminikutty-jeevan@tamu.edu
32	Anand Menon	King's College London, 22 Kingsway, London, WC2B 6NR, Room 1.15	UK	European Politics and Foreign Affairs	anand.menon@kcl.ac.uk

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
33	Anand Nair	Department of Supply Chain Management, Broad College of Business, Michigan State University, 632 Bogue Street, N359, East Lansing, MI 48824	USA	Business Administration	nair@broad.msu.edu
34	Anand Padmanabhalyer	Bldg99, 14820 NE 36th St Redmond, WA 98052, USA	USA	Computer Science	anand.iyer@berkeley.edu
35	Anant K. Menon	Room A231, Department of Biochemistry, Weill Cornell Medical College, 1300 York Ave, New York, NY 10065, USA	USA	Biochemistry	akm2003@med.cornell.edu
36	Anil A. Kesavan	Pediatric Gastroenterologist, Rush University Medical Center, 1725 W. Harrison St. Suite 710 Chicago, IL 60612	USA	Gastroenterology, Pediatric	anil_a_kesavan@rush.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
37	Anil Balan	Department of Law, USS.2.25 University of East London University Square 1 Salway Road London, E15 1NF United Kingdom	UK	Law-Enhancement of teaching, curriculum design, assessment	a.balan@uel.ac.uk
38	Anil Chacko	Department of Psychology, Queens College, University of New York and Department of Psychiatry, Mount Sinai School of Medicine	USA	Psychology-Clinical Psychology	anil.chacko@nyu.edu
39	Anil menon	Medicine-Emergency Medicine Baylor College of Medicine Houston, TX, US	USA	Emergency Medicine	anilm@bcm.edu
40	Anil Menon	The Hospital for Sick Children Division of Cardiology 555 University Avenue Toronto, Ontario M5G 1X8	Canada	Pediatrics and Paediatric Cardiology	anil.menon@sickkids.ca
41	Anil Nair	Office Address : 2030 Constant Hall Norfolk, VA 23529	USA	Management-Industry Analysis, Business Strategy	anair@odu.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
42	Anil V. Nair	Center for Systems Biology, Program in Membrane Biology, Division of Nephrology, Massachusetts General Hospital, Boston, MA, USA / Nair Lab: Anil V. Nair, PhD, Instructor in Medicine, 185 Cambridge Street, CPZN 8150, Boston, MA 02114	USA	Medicine (Renal pathophysiology, electrolyte homeostasis)	nair.anilkumar@mgh.harvard.edu
43	Anil Varughese	5133 Richcraft Hall, Department: School Of Public Policy & Administration, Carleton University	Canada	Public Policy and Administration	anil.varughese@carleton.ca
44	Anilkumar Gopalakrishna Pillai	Office: 5211, Nemours Biomedical Research Experimental Station 200 Powder Mill Road, Building 400, Wilmington, DE 19803	USA	Biochemistry, Biotechnology, Cancer Biomarkers and Therapeutics	anil.g@nemours.org
45	Anita Koshy	University of Arizona, Keating Research Building, Rm 229, Department of Neurology, 1657 E	USA	Neurology, Neuroscience - GIDP, ImmunoBiology	akoshy@email.arizona.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
		Helen Street, Tucson, AZ 85721-0240			
46	Anita Menon	School of Physical and Occupational Therapy, McGill University	Canada	Health Administration	anita.menon@mcgill.ca
47	Anjana Balakrishnan	Social Psychophysiological Research & Quantitative Methods Lab Department of Psychology University of Toronto 100 St. George Street, 4th Floor Toronto, Ontario M5S 3G3	Canada	Social Psychology	abalakr2@uwo.ca
48	Anjana Muralidharan	VISN 5 MIRECC, Baltimore Veterans Affairs (VA) Medical Center, Attn: MIRECC (Annex Bldg.), 10 N. Greene St., Baltimore, MD 21201	USA	Clinical Psychology	anjana.muralidharan2@va.gov

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
49	Anjana Nair	Department of Obstetrics and Gynecology, Texas Tech University Health Sciences Center	USA	Obstetrics and Gynecology - General	anjana.nair@ttuhsc.edu
50	Anju Johnson	Department of Engineering and Technology, University of Huddersfield, Queensgate Huddersfield HD1, 3DH United Kingdom	UK	Electronic Engineering and Embedded Systems	A.Johnson@hud.ac.uk
51	Anna Abraham	Mary Frances Early College of Education, University of Georgia, Athens, USA	USA	Cognitive Psychology, Neuropsychology, Clinical Neuroscience, Social Neuroscience	a.g.abraham@leedsbeckett.ac.uk annaabr@gmail.com
52	Anna Vachaparampil Mathew	Division of Nephrology, Department of Medicine, University of Michigan, Ann Arbor, Michigan, USA / Address2: 1500 E Medical Center Dr , Floor 3 Reception C, Ann Arbor, MI 48109	USA	Nephrology, Pediatrics, Internal Medicine	amat@umich.edu amat@med.umich.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
53	AnnuPalakunnathu Matthew	Swan Hall, Rm 175G 60 Upper College Road Kingston, RI 02881	USA	Photography	18percent@uri.edu
54	Anoop Cherian	201 Broadway, 8th Floor, Cambridge, MA, USA, 02139	USA	Computer Science	cherian@merl.com
55	Anoop Nambiar	Department of Medicine , The University of Texas Health Science Center, San Antonio	USA	Cardiovascular	nambiar@uthscsa.edu
56	Anuji Abraham	Material Science and Engineering, Bristol Myers Squibb, One Squibb Drive, New Brunswick, New Jersey 08903, United States	USA	Physical Chemistry	anuji.abraham@bms.com
57	Anup Karath Nair	Department of Design Manufacturing and Engineering Management (DMEM), University of Strathclyde	UK	Engineering Management	anup.k.nair@strath.ac.uk

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
58	Anupama Kizhakkeveettil	Department of Ayurvedic Medicine, 16200 East Ambervalley Drive Whittier, CA 90604, University of Southern California	USA	Ayurvedic medicine	anupama.kizhakkeveett@scuhs.edu anupama.jayagopal@gmail.com
59	Anupama Poliyedath	Department of Medical Health Science, 1001 Potrero Ave San Francisco CA 94110, University of California, San Francisco	USA	Internal Medicine	anupama.poliyedath@ucsf.edu
60	Anurag Purushothaman	Department of Cancer Medicine, The University of Texas MD Anderson Cancer Center	USA	Biochemistry	apurushothaman@mdanderson.org
61	Anusha Sreejith	Gulf Medical University, Ajman	UAE	Demography	anusha@gmu.ac.ae aanusha.81@gmail.com
62	Aparna Baskaran	Martin A. Fisher School of Physics, Brandeis University, Waltham, MA 02453, USA	USA	Physics-soft materials and of biological systems	aparna@brandeis.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
63	Arathyram Ramachandra Kurup Sasikala	Sir Robert Aitken Institute for Medical Research School of Pharmacy Institute of Clinical Sciences College of Medical and Dental Sciences University of Birmingham Edgbaston Birmingham	UK	Nanotechnology, Drug delivery and Nanomedicine	a.ramachandrakurupsasikala@bham.ac.uk
64	Arif Nellyulla Parambath	Department of Clinical Radiology, Weill Cornell Medical College	USA	Clinical Radiology	anp2052@qatar-med.cornell.edu
65	Arjun Nair	Department of Near Eastern Languages and Civilizations, Religion Department, University of Southern California	USA	Religion Studies	arjunnai@usc.edu nair_arjun@sac.edu
66	Arumugam Ramadhas	Department of Mechanical Engineering ,University of Birmingham	UK	Mechanical Engineering	a.ramadhas@bham.ac.uk asramadhas@yahoo.com

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
67	Arun Abraham	The University of Western Australia (M503), 35 Stirling Highway, 6009 Perth, Australia	Australia	Cardiac imaging	arun.abraham@uwa.edu.au
68	Arun Gopinath	Department of Pathology and Laboratory Medicine, University of Florida	USA	Pathology - Anatomic and Clinical and Surgical Pathology	arun.gopinath@jax.ufl.edu
69	Arun K. Nair	Multiscale Materials ModelingLab, Department of Mechanical Engineering, University of Arkansas, 863 W. Dickson Street, 204 Mechanical Engineering Building, Fayetteville, AR, 72701, USA	USA	Mechanical Engineering	nair@uark.edu
70	Arun Keepanasseril	Room no: 126, Communication Research Laboratory Building (CRL), McMaster University, 1280 Main St. W. Hamilton, Ontario; L8S 4K1, Canada	Canada	e Health	keeppaa@mcmaster.ca

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
71	Arun N. Nambiar	Jordan College Of Agricultural Sciences And Technology, Industrial Technology Department , 2255 E. Barstow, Fresno, CA 93740	USA	Manufacturing Technology	anambiar@csufresno.edu
72	Arun Unni	Cancer Genomics in Medicine, Joan and Sanford I. Weill Department of Medicine, Weill Cornell Medical College	USA	Medicine (Cancer Research, Cell Biology, Molecular Biology, Immunology, Biotechnology, Genetics)	aru2001@med.cornell.edu
73	Asha Kandathil	Department of Radiology, 5323 Harry Hines Blvd., Dallas, Texas 75390, The University of Texas Southwestern Medical Center	USA	Radiology	asha.kandathil@utsouthwestern.edu
74	Asha Nair	Neuroscience 106 Social Sciences Research Building 1125 Colonel By Drive	Canada	Pediatrics , Down syndrome and feeding difficulties in children	nair@cheo.on.ca

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
75	Asha Pillai	University of Miami Health System, Batchelor Children's Research Institute, 1580 NW 10th Ave Room 707 Miami, FL 33136	USA	Pediatrics and Microbiology & Immunology	asha.pillai@med.miami.edu
76	Asha V. Nair	Department of Pharmacology, University of Cambridge, Cambridge, UK	UK	Biochemistry	an437@cam.ac.uk
77	Ashakumary Lakshmikuttyamma	901 Walnut Street 9th Floor, Room 917, Philadelphia, PA 19107	USA	Biochemistry, Pharmaceutical Sciences	ashakumary.lakshmikuttyamma@jefferson.edu
78	Ashalatha Nair	Department of Anesthesiology, Icahn School of Medicine, Mount Sinai	USA	Anesthesiology	ashalatha.nair@mssm.edu
79	Ashvin Vijayakumar	Department of Medicine, Icahn School of Medicine, Mount Sinai / Address2:Oak Street Health, 220 West Chelton Ave Philadelphia, PA 19144	USA	Internal medicine	ashvin.vijayakumar1@mountsinai.org  <a href="https://www.linkedin.com/in/ashvinvk">https://www.linkedin.com/in/ashvinvk</a>

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
80	Asokan Variyath	Department of Mathematics and Statistics, Memorial University of Newfoundland, St.Johns, NL Office: HH 3042	Canada	Statistics-Industrial Statistics, Survival Analysis, Design of Experiments	variath@mun.ca
81	Babu P. George	Office: McCartney Hall 105 D, Department of Management, Fort Hays State University	USA	Management Studies, Hospitality and Tourism Management	bpgeorge@fhsu.edu
82	Babu P.K.	Western Illinois University, University Circle Macomb, IL 61455, USA	USA	Physics	PK-Babu@wiu.edu
83	Baburaj Karanayil	Department of Electrical Engineering and Telecommunications, The University of New South Wales / Address2: Tyree Energy Technologies Building(H6) Level 3, Room 321, Kensington Campus	Australia	Electrical Engineering	k.baburaj@unsw.edu.au

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
84	Baby Tholanikunnel	Department of Biochemistry and Molecular Biology, Medical University of South Carolina	USA	Biochemistry	tholanik@musc.edu
85	Bala Maheswaran	367 Snell Engineering Center, 360 Huntington Avenue , Boston, MA 02115	USA	Engineering Physics	mahes@coe.neu.edu
86	Balagopal Nair	R & D Centre, Noritake Co., Limited, 300 Higashiyama, Miyoshi, Aichi 470-0293, Japan	Japan	Chemistry-Materials Chemistry	B.Nair@exchange.curtin.edu.au bnair@n.noritake.co.jp
87	Balakrishnan Naduvalath	Department Of Chemistry, University Of Nevada-Las Vegas, 4505 Maryland Parkway Box 4003, Las Vegas, Nevada 89154-4003	USA	Physical & Environmental Chemistry	naduvala@unlv.nevada.edu
88	Balan Rathakrishnan	Department of Psychology and Education, University Malaysia Sabah, Kota Kinabalu, Sabah, Malaysia.	Malaysia	Psychology	rbhalan@ums.edu.my

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
89	Balraj Menon	Department of Physics & Astronomy, University of Central Arkansas, 201 Donaghey Avenue, Lewis Science Center, Rm 171, Conway, AR 72035	USA	Physics-differential geometry and group- theoretic methods	menonb@uca.edu
90	Beena M.R.	Department of Microorganisms and Cell Cultures, ILeibniz Institute of Plant Genetics and Crop Plant Research (IPK), Gatersleben, Germany	Germany	Physical Chemistry	beenamr@gmail.com
91	Bhamini Nayar	Carnegie Hall 351, Department of Mathematics, Morgan State University	USA	Mathematics-General Topology, Analysis and their applications	bhamini.nayar@morgan.edu
92	Bhaskaran Gopalakrishnan	Department of Industrial and Management Systems Engineering, Benjamin M. Statler College of Engineering and Mineral Resources, West Virginia University	USA	Industrial Engineering and Operations Research	bgopalak@mail.wvu.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
93	Bhavani Sridharan	Department of Business and Law, Melbourne Burwood Campus, Deakin University, Australia	Australia	Collaborative Learning, Technology Enhanced Learning, Constructivism, Business Information Technology	bhavani.sridharan@deakin.edu.au
94	Biju Bhargavan	Department of Pathology and Microbiology, Durham Research Center 4060 985800 Nebraska Medical Center Omaha, NE 68198-5800	USA	Osteoporosis, HIV-1	bbhargavan@unmc.edu
95	Bina Nair	Department of Psychiatry, University of Alberta	Canada	Psychiatry	bnair@ualberta.ca
96	Bindu Malieckal	Department of English, Saint Anselm College	USA	English-Early Modern Literature and Postcolonial Literature	bmalieckal@anselm.edu
97	Bindu Menon	Department of Medical Education, University of Toledo College of Medicine and Life Sciences, Room 3105B, CCE Bldg, 2920 Arlington Ave, Toledo, OH, 43614, USA	USA	Physiology & Biochemistry	bindumen@gmail.com bindu.menon@utoledo.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
98	Binesh Puthen Veettil	Department of School of Engineering, Macquarie University	Australia	Photovoltaics , Advanced material and device characterization, Nanotechnology,Modelling and simulations	binesh.puthenveettil@mq.edu.au
99	Binoy Mathew Chandy	Department of Otolaryngology Head & Neck Surgery, 6701 Fannin Clinic: 5th Floor Houston, Texas 77030 United States, Baylor College of Medicine	USA	Otolaryngology	bmchandy@bcm.edu
100	Binoy Paulose Nadappuram	R545, Chemistry, South Kensington Campus, Imperial College London	UK	Physical Chemistry	b.paulose@imperial.ac.uk
101	Binu Prakash	The Czech Academy of Sciences,Prague, Czechia	Czech Republic	Biochemistry	<a href="https://in.linkedin.com/in/dr-binu-prakash-657b49b0">https://in.linkedin.com/in/dr-binu-prakash-657b49b0</a>
102	Brijesh Sathian	Geriatrics and long term care Department, Rumailah Hospital, Hamad Medical Corporation, P. O BOX 3050, Doha, Qatar	Qatar	Geriatrics, Epidemiology	drsathian@gmail.com

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
103	Chandana Unnithan	Torrens University Australia (Laureate Global Universities), Adelaide, SA, 5000, Australia	Australia	Digital Health and Informatics	chandana.unnithan@laureate.edu.au chandana.unnithan@torrens.edu.au
104	Chandra Mallampalli	Deane Hall 205, Department of History, Westmont College	USA	History-Modern South Asia	mallampa@westmont.edu cmallampalli@hds.harvard.edu
105	Chandra Nair	Department of Information Engineering, The Chinese University of Hong Kong, Sha Tin, N.T, Hong Kong	Hong Kong	Information Engineering	chandra@ie.cuhk.edu.hk chandra.nair@gmail.com
106	Chandrasekaran Mohan	School of Computing (SoC), National University of Singapore (NUS), Singapore / Address2 : School of Software, Tsinghua University (THU), Beijing, China	China	Computer Science	cmohan@nus.edu.sg cmohan@comp.nus.edu.sg
107	Cherian George	Hong Kong Baptist University, Hong Kong	Hong kong	Media Studies	cherian@hkbu.edu.hk

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
108	Chinchu J.U.	700 Albany St, School of Medicine - Pharm & Exp Ther Jiang Lab, Boston, Massachusetts, United States	USA	Biochemistry	chinchu.ju@gmail.com chinchuj@bu.edu
109	Chindu Sreedharan	Weymouth House W336, Talbot Campus, Fern Barrow, Poole, BH12 5BB	UK	Journalism and Communication	csreedharan@bournemouth.ac.uk
110	Chitra Nayar	Decision and Technology Analytics (DATA), Office: RBC 327, University of Lehigh	USA	Information systems	csn3@lehigh.edu
111	Cyril Perumamthadathil Stephen	Department of Veterinary Reproduction, Building 229 Room 139, Wagga Wagga, Charles Sturt University	Australia	Veterinary Reproduction	cperumamthadathil@csu.edu.au cstephen@csu.edu.au
112	Deepa Devarajan	UT/ORNL Center for Molecular Biophysics, Biosciences Division, Oak Ridge National Laboratory, 1 Bethel Valley Road, Oak Ridge, Tennessee	USA	Computational Chemistry	devarajand@ornl.gov

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
		37831-6309, United States			
113	Deepa Oommen	201R Armstrong Hall (AH 201R), Minnesota State Colleges & Universities	USA	Communication Studies	deepa.oommen@mnsu.edu
114	Deepa Pillai	CBM 108, 5500 N. St. Louis Ave, Chicago, IL 60625, United States	USA	Management and Marketing	d-pillai@neiu.edu
115	Deepa Thomas	Department of Physics, The University of Texas at Austin, Austin, TX, United States	USA	Physics	deepa.thomas@utexas.edu
116	Deepak Gopinath	Department of Environment, Town & Regional Planning, University of Dundee Perth Rd Dundee DD1 4HN	UK	Town and Regional Planning	d.gopinath@dundee.ac.uk
117	Deepak P. Thomas	Department of Internal Medicine, Division of Cardiology, Box 980036	USA	Cardiology	deepak.thomas@vcuhealth.org

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id
118	Deepak Vikraman Sushama	Department of Surgery, DUMC Box 3522 Med Ctr, Durham, NC 27710, Duke University	USA	Health Insurance Carriers and Transplant Networks	d.vikraman@duke.edu
119	Deepika Menon	Department of Physics, Astronomy & Geosciences, Towson University, Towson, Maryland, USA	USA	Science Education	dmenon@towson.edu
120	Devatha P. Nair	School of Dental Medicine, University of Colorado -Anschutz Medical Campus, 12800 East 19th Avenue, Mail Stop 8120, Aurora, CO 80045	USA	Materials Science , Electroactive Polymers	devatha.nair@cuanschutz.edu devatha.nair@ucdenver.edu
121	Devidas Menon	3-0032 Research Transition Facility, 8410 - 114 St NW, Edmonton AB, T6G 2V2	Canada	Applied Microeconomics	dev.menon@ualberta.ca
122	Dhanalakshmi R. Nair	Department of Molecular & Cellular Biology, Dartmouth College	USA	Biology-biology computing, cellular biophysics, genetics	dhanalakshmi.r.nair@dartmouth.edu

No.	Name of Scholar	Institution Attached	Country	Broad area of expertise	Email id

Specialisation Areas of Scholars (Registered)

<b>Specialisation Areas</b>
Aerospace manufacturing
Aging biology
Agriculture and Natural Resources
agroforestry systems
Animal Science
Anthropology, Development Studies
Aquaculture
Aquaculture Economics and Marketing
Artificial Intelligence
Bio-chemical sciences
Biodegradation, Drug resistance
Bioinformatics-Computational Biology, Cancer Genomics
Biomaterials & Biomedical Devices
Biomaterials development, Artificial skin development, Nanomedicine, 3D bioprinting
Biomedical engineering
Biomedical-Bioinformatics-cancer Genomics
Biometrics- Computer Vision
Biosensing, Diagnostic device
Biotechnology
Business Studies
Business; Innovation; Digital Transformation
Cancer Biology, Bioinformatics, Clinical Translation, Biomarker development
Cancer research and drug development
Cereal Science
Chemical and Biological Sensor development
Chemical Engineering, Nanotechnology

Specialisation Areas
Climate Change
Cognitive Neuroscience
Community Medicine/Public Health
condensed matter physics and materials physics
Construction & Building Materials
Construction informatics, Digital transformation
Cybersecurity, Artificial Intelligence
Data Science, Artificial Intelligence
Dental-Maxillofacial Radiology
Dentistry, Endodontics
Developmental Biology
Drug Science
Electrochemistry
Endocrinology
Environmental Geoscience
Epidemiology and Biostatistics
Finance and Economics
Fluorescence microscopy & opensource tools
Food safety, food animal microbiology
Functional Genomics & Cancer Research
Gender Studies - Community Development
Genetics, BMenetics, Biological Psychiatry
Genomics, immunology, molecular biology
Geotechnical Engineering
Geriatrics and Clinical research
GIS analysis, database management
Haptics, Tactile Displays, Assistive Devices
Healthcare Informatics, Human Factors Engineering
Highway Design

<b>Specialisation Areas</b>
Human Visual System, Neuroscience
Immunology, Infectious diseases, Virology
Immuno-oncology, Translational Medicine
Industrial and Systems Engineering
Information Theory, High Dimensional Probability Theory
International Business Pedagogy
International Political Economy
International tax policy
Journalism
Labor Studies
Machine learning and data science
Manufacturing, Augmented Reality, RFID
Marine Geophysical Survey
Marine Industry-Ship technology
material science and engineering
Material Science-Energy Development
Materials Science (Polymers; Energy; Sustainability)
Meat Science, Food Science, Sustainability
Medical Genetics & Genomics
Medical research Industry
Micro electronics, Semiconductors
Migration, cultural studies
Molecular Chemistry
Nano Science Energy Studies
Nano-bioscience
Nanomaterials and optoelectronics
Nanoparticle physics
Nanotechnology, drug delivery
Natural Hazards

Specialisation Areas
Neonatal Medicine
Nephrology, kidney transplantation
Neuroscience
Ocean Optics and Remote Sensing
Oceanography & Fisheries
Oil Exploration
Oncology and public health
organic synthesis, green chemistry
Orthopaedics research
Ovarian cancer research
Particle physics theory
Patient care Research and education
Pharmacology/Biochemistry
Photonics Sensing and Engineering
Polymer nanocomposite research
Polymeric Bionanomaterials
Quality and Productivity & Statistical technique
Recovery & Recycling of rare earth metals
Rehabilitation Studies
Respiratory physiology, Mechanobiology.
South Asian History
Space Science, Remote Sensing
Spinal cord regeneration
Strategic Management
Sustainability studies
Sustainable Nanotechnology
Sustainable vegetable production
Theoretical and Computational Chemistry
Theoretical Physics

<b>Specialisation Areas</b>
Tourism and Hospitality
Underwater Robotics
Vaccines, immunology, Pre-Clinical research
Virology-mRNA-vaccines
Water Resources Engineering & Management

## Annexures

**PROCEEDINGS OF THE MEMBER SECRETARY  
STATE PLANNING BOARD, THIRUVANANTHAPURAM  
(Present: Dr. VENU.V. IAS)**

Sub: Short-term study Proposal -“Building up Database of the Keralite-Academic Diaspora around the Globe” - Administrative Sanction accorded- Order issued

Read:

1. GO (P) No.38/16/Plg dated 05/09/2016 of the P&EA Department
2. GO(Rt) No.249/2020/P&EA dated 08/06/2020
3. Email received from Dr. Rajan Gurukkal, Vice Chairman, Kerala State Higher Education Council, Dated: 05/02/2021
4. Letter.No. KSHC-A7/720/MS/Drct/2020(Term Project) from Dr Rajan Varughese, Member Secretary, Kerala State Higher Education Council, Thiruvananthapuram dated 19/02/2021

**ORDER No. 130/2021/EVN/SPB DATED : 22/02/2021**

The Vice Chairman, State Planning Board has the delegation of power to sanction ₹ 10 lakh in each case in terms of studies, surveys, research relating to the functioning of State Planning Board as may be necessary subject to budget provision either directly by State Planning Board or through established research institutions as per order read as 1<sup>st</sup> above.

As per the order read as 2<sup>nd</sup> above, the Govt have accorded administrative sanction for the scheme ‘Preparation of Plans & Conduct of Surveys and Studies’ by meeting the expenditure under the head of account 3451-00-101-93-00-34-03-other items (Plan), from the current year’s budget provision.

The Vice Chairman, Kerala State Higher Education Council, Vikas Bhavan, Thiruvananthapuram has forwarded the study proposal titled, –“Building up Database of the Keralite-Academic Diaspora around the Globe”- at an estimated cost of ₹ 3,00,000/- (**Rupees Three Lakh Only**) and will be completed within a period of 6 months as per reference 3<sup>rd</sup> cited. The study intends to prepare a detailed Data Pool of the academically enriched Keralites who are working in different parts of the world in different fields like Economics, Environment, Information Technology, Medical research, Disaster management, R&D, Science etc.

**The purpose of the study is to:**

- a) Attract, share, evolve, integrate and incorporate Keralite- academics in advanced fields of science, technology and social sciences for the quality enhancement in the higher education institutions in Kerala.
- b) Effectively implement the Erudite Scholar –in-Residence cum Brain Gain programme and locate experts relevant for the enhancement of State’s intellectual property contribution
- c) Establish communication directly with the experts and it will identify experts in high-tech industries and invite them for generating ideas for the reconstitution of the curricula of the higher education institutions
- d) Provide advisory support to the Govt by using the above database in relevant matters of expertise

Method of Data Mobilisation will be done through Direct search from National and International web based sources ,web based institutional Combing and indirect search via correspondence with persons, academicians, scientists, social scientists, technologists, Regional Malayali Organisations abroad, medical professionals, technocrats/CEOs of Multinational Companies, Malayali Students Organisations, Parents of Students abroad and data call notification through the website of Universities in the state.

As per the references 3<sup>rd</sup> & 4<sup>th</sup>, the Vice Chairman, KSHEC, Thiruvananthapuram has forwarded the study proposals with project cost and details of Principal investigator as given below.

Sl. No	Study proposal	Principal Investigator	Sanctioned Amount
1	Short –term Project on – “Building up Database of the Keralite-Academic Diaspora around the Globe”	Dr Manulal .P Ram Research Officer, Kerala State Higher Education Council, Thiruvananthapuram	Rs.3,00,000 (Rupees Three Lakh Only)

In the above circumstances, Administrative Sanction is here by accorded to conduct the short term study for an amount of **₹3,00,000- (Rupees Three Lakh Only)** subject to the following conditions:

Copy to:-

1. PA to the Vice Chairperson, State Planning Board, Pattom

Based on this, State Planning Board has issued proceeding vide order No. 130/2021/EVN/SPB dated 22-2-2021 giving administrative sanctions to undertake the study on **Building up Database of the Keralite-Academic Diaspora around the Globe** at a total cost of ₹ 300000/- (Rupees Three Lakhs only ) inclusive of all taxes.

This agreement is made to enter into a contract with the second party for the studies, research and surveys for the use of the State Planning Board during the financial year 2020-2021. The agreement shall be in accordance with the provisions as laid down in the Administrative sanction vide order No. 130/2021/EVN/SPB dated 22-2-2021 issued for this purpose. Accordingly Dr. Manulal P. Ram, Research Officer, Kerala State Higher Education Council, Thiruvananthapuram (name of Principal Investigator) is selected to conduct the study on **Building up Database of the Keralite-Academic Diaspora around the Globe** (topic) at a total cost of ₹ 3,00,000/-.

This agreement is executed for undertaking the study on **Building up Database of the Keralite-Academic Diaspora around the Globe** (specify title) between the first party and the second party.

The Second Party shall agree to undertake the study subject to the following conditions:

15609 3-3-2021  
The Member Secretary  
Kerala State Higher Education Council

PUTHEN CHANTHAI

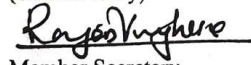

**KSHEC-SPB /Short-Term Project (130/2021/EVN/SPB)**

1. The report shall be in accordance with the methodology and objectives as scrutinized and approved by SPB
2. The second party shall abide by the norms and conditions of SPB specified in the administrative sanction
3. The Principal Investigator shall produce a no objection certificate from the head of respective institution to take up the study and it will not affect routine work of the institution
4. The maximum period for completing the study shall be 6 months
5. Interim report shall be submitted before submission of the final report
6. The final report shall be presented before the officials of the State Planning Board within the prescribed time limit
7. The Principal Investigator shall invariably attend the meeting in State Planning Board in connection with the progress of the study
8. If the Principal Investigator/ investigating institution could not undertake the study or complete the report, they should report the matter before the SPB officials in writing and the entire advance amount received (if any), with the government approved rate of interest shall be refunded
9. The 40% of sanctioned amount of the study shall be released immediately after signing the agreement, another 40% at the time of draft report and final 20% after the submission of final report
10. The utilization certificate and audited expenditure statement shall be furnished along with final claim

**SIGNATURE OF THE PARTIES**

IN WITNESS WHEREOF the parties hereto have signed this agreement on the day, month and year mentioned above

(Second Party)

KSHEC

## Database of Keralite-Academic Diaspora

The Kerala State Higher Education Council is building up Database of **Keralite-Academic Diaspora** of Scientists, Social Scientists and Humanities Experts, Medical Professionals Technocrats/CEOs of Multinational Establishments, Economists, Environment/Biochemistry/ Sustainability/ Resilience/Disaster Management Experts working in the famous Universities and Research Institutions the world over and specializing in emerging areas of knowledge

### Key Objectives

- ✓ Attract, share, involve, integrate and incorporate Keralite-Academics in advanced fields of science, technology, and social sciences for the quality enhancement in higher education institutions in Kerala
- ✓ Effectively implement the Erudite-Scholar in Residence cum Brain Gain programme
- ✓ Launch the programme of brain circulation by bringing the experts as short-term teachers, part-time collaborators, and co-supervisors in researches in the universities
- ✓ Locate experts in science-tech hybrid fields relevant to the transformation of higher education to knowledge economy and enhancement of the states' intellectual property contributions
- ✓ Establish communication directly with the experts who possess the expertise
- ✓ Identify experts in high-tech industries and invite them for generating ideas for the reconstitution of the curricula of the higher education institutions
- ✓ Provide advisory support to the government by using the above database in relevant matters of expertise

The council invites Scholars for registering their names on the web portal using this link
